

DIGIMON CARD GAME ACROSS TIME [BT12]

BT12

No.	Card Name	Q	A
BT12-001	Gigimon		
	1	What does "Add 1000 to the maximum your DP-based deletion effects can delete" in this card mean?	It means that effects that choose targets to delete based on DP have their reference DP increased by 1000, such as "Delete a Digimon with DP or less" and "Choose any number of your opponent's Digimon whose total DP adds up to DP and delete them.", among others. However, it does not affect deletion effects that do not have a written DP value in their text, such as "Delete 1 of your opponent's Digimon with DP less than or equal to this Digimon's DP".
BT12-016	WarGrowlmon		
	1	When this Digimon's [When Digivolving] effect doesn't delete any of my opponent's Digimon, does the effect let it digivolve into [BT5-081 ChaosGallantmon], [BT9-017 Gallantmon (X Antibody)], or [EX2-073 Gallantmon Crimson Mode]?	Digivolution into [BT9-017 Gallantmon (X Antibody)] is possible. Digivolution into [BT5-081 ChaosGallantmon] isn't possible because the digivolution requirements aren't met. [EX2-073 Gallantmon Crimson Mode] is level 7, so digivolution isn't possible.
	2	If a Digimon with this card in its digivolution cards attacks and is deleted in a battle during that attack, does this card's [End of Attack] inherited effect activate?	No, it doesn't activate.
BT12-021	Veemon		
	1	If the 3 cards revealed by this card's effect only include 1 Digimon card with [Imperialdramon] in its name or the [Free] trait, or 1 Tamer card with [Davis Motomiya] in its name among them, can I still add a card to my hand?	Yes, as long as either a Digimon card with [Imperialdramon] in its name or the [Free] trait, or a Tamer card with [Davis Motomiya] in its name is among the cards revealed, you can add it to your hand.
	2	If the 3 cards revealed by this card's effect include both a Digimon card with [Imperialdramon] in its name or the [Free] trait, and a Tamer card with [Davis Motomiya] in its name among them, can I choose to only add one of them to my hand and return the rest to the bottom of the deck?	No. This card's effect reads "Add 1 card [...] and 1 Tamer card [...] among them to your hand," so you must add as many cards to your hand as possible.
	3	This card's effect reveals 3 cards. If a [BT8-088 Davis Motomiya & Ken Ichijoji] is among the cards revealed, can I add that card to my hand?	Yes, it's a Tamer card with [Davis Motomiya] in its name, so you can add it to your hand.
BT12-024	Ranamon		
	1	If this card has a Tamer card in its digivolution cards, does that Tamer card's [Security] effect become an inherited effect?	No, Tamer cards' [Security] effects aren't inherited effects. Some Tamer cards do have inherited effects, and those can be activated when such cards are placed in digivolution cards.
	2	Instead of a Tamer card, can I digivolve this card onto a level 3 Digimon that meets the digivolution requirements?	Yes, you can.
	3	After this card's effect causes a Tamer card to end up in its digivolution cards, is that card affected by effects that trash digivolution cards?	Yes, it is. However, if the effect specifies Digimon cards, Digi-Egg cards, or any other type of card that isn't a Tamer card, it can't be targeted by that effect.

	4	If I digivolve this card on top of a Tamer card, do I still get the digivolution bonus?	Yes, you do. Even if you digivolve onto a Tamer card, make sure to draw 1 card as the digivolution bonus.
	5	Can I attack during the turn I digivolve this card on top of a Tamer card?	Yes. Digivolution doesn't count as "playing" a card, so you can attack that turn.
	6	On the turn I have played a Tamer, I digivolve it into this Digimon. During that same turn, can this Digimon attack?	No. Digimon cannot attack on the turn they were played, and because the Tamer was played that turn, the restriction still applies to the Digimon that digivolved onto it.
	7	If I've digivolved this card on top of a Tamer card and the Digimon is deleted, what happens to the Tamer card?	It's trashed.
BT12-025	Calmaramon		
	1	If this card has a Tamer card in its digivolution cards, does that Tamer card's [Security] effect become an inherited effect?	No, Tamer cards' [Security] effects aren't inherited effects. Some Tamer cards do have inherited effects, and those can be activated when such cards are placed in digivolution cards.
	2	Instead of a Tamer card, can I digivolve this card onto a level 3 Digimon that meets the digivolution requirements?	Yes, you can.
	3	After this card's effect causes a Tamer card to end up in its digivolution cards, is that card affected by effects that trash digivolution cards?	Yes, it is. However, if the effect specifies Digimon cards, Digi-Egg cards, or any other type of card that isn't a Tamer card, it can't be targeted by that effect.
	4	If I digivolve this card on top of a Tamer card, do I still get the digivolution bonus?	Yes, you do. Even if you digivolve onto a Tamer card, make sure to draw 1 card as the digivolution bonus.
	5	Can I attack during the turn I digivolve this card on top of a Tamer card?	Yes. Digivolution doesn't count as "playing" a card, so you can attack that turn.
	6	On the turn I have played a Tamer, I digivolve it into this Digimon. During that same turn, can this Digimon attack?	No. Digimon cannot attack on the turn they were played, and because the Tamer was played that turn, the restriction still applies to the Digimon that digivolved onto it.
	7	If I've digivolved this card on top of a Tamer card and the Digimon is deleted, what happens to the Tamer card?	It's trashed.
BT12-026	ShogunGekomon		
	1	Does this card's [All Turns] effect activate when my opponent's Digimon activates <Digi-Burst>?	Yes, it does.
BT12-027	Mermaimon		
	1	When this card's effect places 1 of my other blue Digimon as this Digimon's bottom digivolution card, what happens to that Digimon's digivolution cards?	They're trashed.
	2	When this card's effect places 1 of my other blue Digimon as this Digimon's bottom digivolution card, if that Digimon has [BT9-109 X Antibody] in its digivolution cards, what happens to that card?	It's not being trashed by the effect, it's being trashed because of the rules, so [BT9-109 X Antibody] does still get trashed.

BT12-031	Imperialdramon: Fighter Mode		
	1	When there are 3 or more colors in this card's digivolution cards, does it gain <Security Attack +2> from its [All Turns] effect?	No, it doesn't. This effect reads "While it has 2 or more colors in its digivolution cards, it gains <Security Attack +1> and <Blocker>," so the gained effect doesn't change even if there are 3 or more colors in the digivolution cards.
BT12-034	Agumon		
	1	This card's effect reveals 4 cards. If the cards revealed only include a Digimon card with [Greymon] in its name or [Marcus Damon], can I still add a card to my hand?	Yes, as long as either a Digimon card with [Greymon] in its name or [Marcus Damon] is among the cards revealed, you can add it to your hand.
	2	This card's effect reveals 4 cards. If both a Digimon card with [Greymon] in its name and [Marcus Damon] are among the cards revealed, can I choose to only add one of them to my hand, and place the other cards at the bottom of my deck?	No. This card's effect reads "Add 1 Digimon card [...] and 1 [Marcus Damon] among them to your hand," so you must add as many cards to your hand as possible.
BT12-039	Gokuumon		
	1	What kind of Digimon does this effect's "Digimon with <Security Attack>" refer to?	It refers to Digimon affected by <Security Attack +> or <Security Attack -> effects.
BT12-040	Sagomon		
	1	What kind of Digimon does this effect's "Digimon with <Security Attack>" refer to?	It refers to Digimon affected by <Security Attack +> or <Security Attack -> effects.
BT12-043	ShineGreymon		
	1	Can my [Marcus Damon] Tamer, that gains +3000 DP and <Security Attack +1> from this card's [Your Turn] effect, attack as just a Tamer?	No. Tamers cannot attack, so a [Marcus Damon] Tamer in the battle area can't attack. However, if an effect such as the one on [BT12-092 Marcus Damon] causes it to be treated as a Digimon, then it is able to attack.
	2	When an effect that targets Digimon with 3000 DP or less is activated, can a [Marcus Damon] that gains +3000 DP from this card's [Your Turn] effect be chosen as a target for that effect?	No, effects that target Digimon can't target a [Marcus Damon] that's just a Tamer in the battle area.
	3	My [Marcus Damon] digivolved into a Digimon with a "you may digivolve as if your Tamer is a level 3 Digimon" effect. In such cases, what happens to the +3000 DP/<Security Attack +1> that [Marcus Damon] gained from this card's [Your Turn] effect?	This effect is not an effect with a set duration such as "for the turn," so the effect is lost unless the Digimon's name is still [Marcus Damon] after digivolving.
	4	Is a [Marcus Damon] that gained +3000 DP by this card's [Your Turn] effect treated as a Tamer with 3000 DP?	No, Tamers can't have DP, so it's not treated as a Tamer with 3000 DP.
BT12-044	Lampmon		
	1	What kind of Digimon does this effect's "Digimon with <Security Attack>" refer to?	It refers to Digimon affected by <Security Attack +> or <Security Attack -> effects.
BT12-047	Wormmon		
	1	If the 3 cards revealed by this card's effect only include a Digimon card with [Imperialdramon] in its name or the [Free] trait, or a Tamer card with [Ken Ichijoji] in its name among them, can I still add a card to my hand?	Yes, as long as either a card with [Imperialdramon] in its name or the [Free] trait or a card with [Ken Ichijoji] in its name is among the cards revealed, you can add it to your hand.

	2	If the 3 cards revealed by this card's effect include both a Digimon card with [Imperialdramon] in its name or the [Free] trait, and a Tamer card with [Ken Ichijoji] in its name among them, can I choose to only add one of them to my hand and return the others to the bottom of my deck?	No. This card's effect reads "Add 1 card [...] and 1 card [...] among them to your hand," so you must add as many cards to your hand as possible.
BT12-048	Dracmon		
	1	With this card's [On Play] effect, can I reveal 3 Tamer cards from my hand but not return them to the bottom of my deck?	No, you can't. The condition for this card's [On Play] effect is "By revealing up to 3 Tamer cards in your hand and placing them at the bottom of your deck in any order," and you can't perform only a part of it. If you reveal 3 Tamer cards from your hand, you must return all of them to the bottom of your deck.
BT12-055	Dinobeemon		
	1	What happens to this card's [When Digivolving] effect if my opponent doesn't have any Digimon that can be attacked?	There is no target for the attack, so the effect ends without an attack being performed.
BT12-056	GranKu wagamon		
	1	What happens to this card's [When Digivolving] effect if my opponent doesn't have any Digimon that can be attacked?	There is no target for the attack, so the effect ends without an attack being performed.
BT12-057	Quartzmon		
	1	How do I count "for every 2 suspended Digimon and/or Tamers, gain 1 memory" for this card's [When Digivolving] effect?	Count the total number of you and your opponent's suspended Digimon and suspended Tamers, then gain 1 memory for every 2. For example, if you have 1 suspended Digimon and 1 suspended Tamer while your opponent has 2 suspended Digimon, the total would be 4 and you gain 2 memory.
	2	If I have 2 or more of this Digimon in the battle area, or if me and my opponent have 1 or more each, does this Digimon itself become unable to unsuspend during the unsuspend phase because of this card's [All Turns] effect?	Yes, that's right. Other [BT12-057 Quartzmon]'s [Other than this Digimon, all Digimon and Tamers don't unsuspend.]'s effect will also activate, so if there's more than 1 of this Digimon in play, none of them will be able to unsuspend during the unsuspend phase.
	3	If this Digimon is in play, and 2 suspended Digimon perform DNA Digivolution, will that Digimon unsuspend?	Yes, it unsuspends. DNA Digivolution treats unsuspended Digimon because of the DNA Digivolution as new Digimon in the battle area. This card's effect does not affect it since it's not treated as a suspended Digimon becoming unsuspended
	4	If this Digimon is in play, do other Digimon or Tamers with effects such as <Reboot> or "Unsuspend this..." become unable to unsuspend?	Yes, that's right. Even with the "Unsuspend this..." effect, they don't unsuspend.

BT12-059	Agumon		
	1	This card's effect reveals 4 cards. If the cards revealed only include a Digimon card with [Greymon] or [Omnimon] in its name or 1 Tamer card with [Tai Kamiya] in its name, can I still add a card to my hand?	Yes, as long as either a Digimon card with [Greymon] or [Omnimon] in its name or 1 Tamer card with [Tai Kamiya] in its name is among the cards revealed, you can add it to your hand.
	2	This card's effect reveals 4 cards. If both a Digimon card with [Greymon] or [Omnimon] in its name and a Tamer card with [Tai Kamiya] in its name are among the cards revealed, can I choose to only add one of them to my hand, and return the other cards to the bottom of my deck?	No. This card's effect reads "Add 1 Digimon card [...] and 1 Tamer card [...] among them to your hand," so you must add as many cards to your hand as possible.
	3	This card's effect reveals 4 cards. If [BT5-093 Tai Kamiya & Matt Ishida], [BT9-084 Tai Kamiya & Kari Kamiya], or [P-012 Tai Kamiya (V-Tamer)] is one of the cards revealed, can I add that card to my hand?	Yes, those are Tamer cards with [Tai Kamiya] in their names, so you can add one to your hand.
BT12-065	Sephirothmon		
	1	If this card has a Tamer card in its digivolution cards, does that Tamer card's [Security] effect become an inherited effect?	No, Tamer cards' [Security] effects aren't inherited effects. Some Tamer cards do have inherited effects, and those can be activated when such cards are placed in digivolution cards.
	2	Instead of a Tamer card, can I digivolve this card onto a level 3 Digimon that meets the digivolution requirements?	Yes, you can.
	3	After this card's effect causes a Tamer card to end up in its digivolution cards, is that card affected by effects that trash digivolution cards?	Yes, it is. However, if the effect specifies Digimon cards, Digi-Egg cards, or any other type of card that isn't a Tamer card, it can't be targeted by that effect.
	4	If I digivolve this card on top of a Tamer card, do I still get the digivolution bonus?	Yes, you do. Even if you digivolve onto a Tamer card, make sure to draw 1 card as the digivolution bonus.
	5	Can I attack during the turn I digivolve this card on top of a Tamer card?	Yes. Digivolution doesn't count as "playing" a card, so you can attack that turn.
	6	On the turn I have played a Tamer, I digivolve it into this Digimon. During that same turn, can this Digimon attack?	No. Digimon cannot attack on the turn they were played, and because the Tamer was played that turn, the restriction still applies to the Digimon that digivolved onto it.
	7	If I've digivolved this card on top of a Tamer card and the Digimon is deleted, what happens to the Tamer card?	It's trashed.
	8	Can I choose an opponent's Digimon with a "can't attack" effect as the target when I activate this card's [When Digivolving] effect?	Yes, you can. However, in such cases the "can't attack" effect prevents making the attack.

	9	What happens if this card's [When Digivolving] effect activates twice and 2 of my opponent's Digimon gain the "[Start of Your Main Phase] Attack with this Digimon" effect?	At the start of your opponent's main phase, the effects gained from this card's effect are triggered at the same time, and your opponent determines which one activates first. After effects such as [When Attacking] have activated, and before the reaction timing occurs, it is time to activate the effect of the 2nd Digimon that was pending activation. However, since the 1st Digimon is already attacking, the effect ends without an attack made. As a result, only the Digimon whose effect was activated first can attack.
	10	What happens if this card's [When Digivolving] effect is activated on an opponent's Digimon with an "[Opponent's Turn] This Digimon isn't affected by your opponent's effects" effect?	You can still choose a "this Digimon isn't affected by your opponent's effects" Digimon as a target for the effect. As soon as it becomes your opponent's turn, that opposing Digimon loses the "this Digimon isn't affected by your opponent's effects" effect and is affected by this card's effect. As a result, the attack occurs at the start of the main phase.
BT12-066	Mercurymon		
	1	If this card has a Tamer card in its digivolution cards, does that Tamer card's [Security] effect become an inherited effect?	No, Tamer cards' [Security] effects aren't inherited effects. Some Tamer cards do have inherited effects, and those can be activated when such cards are placed in digivolution cards.
	2	Instead of a Tamer card, can I digivolve this card onto a level 3 Digimon that meets the digivolution requirements?	Yes, you can.
	3	After this card's effect causes a Tamer card to end up in its digivolution cards, is that card affected by effects that trash digivolution cards?	Yes, it is. However, if the effect specifies Digimon cards, Digi-Egg cards, or any other type of card that isn't a Tamer card, it can't be targeted by that effect.
	4	If I digivolve this card on top of a Tamer card, do I still get the digivolution bonus?	Yes, you do. Even if you digivolve onto a Tamer card, make sure to draw 1 card as the digivolution bonus.
	5	Can I attack during the turn I digivolve this card on top of a Tamer card?	Yes. Digivolution doesn't count as "playing" a card, so you can attack that turn.
	6	On the turn I have played a Tamer, I digivolve it into this Digimon. During that same turn, can this Digimon attack?	No. Digimon cannot attack on the turn they were played, and because the Tamer was played that turn, the restriction still applies to the Digimon that digivolved onto it.
	7	If I've digivolved this card on top of a Tamer card and the Digimon is deleted, what happens to the Tamer card?	It's trashed.
BT12-068	MetalGreymon		
	1	This Digimon attacks my opponent, then my opponent activates <Blocker>. Does this card's [All Turns] effect activate?	Yes, <Blocker> causes the attack target to switch, so the effect activates.

	2	Does this card's [All Turns] effect activate even when the attack whose target is switched was made by one of my other Digimon or an opponent's Digimon?	Yes, it activates.
BT12-070	WarGreymon		
	1	This Digimon attacks my opponent, then my opponent activates <Blocker>. Does this card's [All Turns] effect activate?	Yes, <Blocker> causes the attack target to switch, so the effects activate.
	2	Does this card's [All Turns] effect activate even when the attack whose target is switched was made by one of my other Digimon or an opponent's Digimon?	Yes, it activates.
BT12-071	AncientWisemon		
	1	If the cards revealed by this card's effect include a Digimon card with a play cost of 7 or more that could be reduced to 6 or less by another effect, can I play that card?	No, you can't.
BT12-072	Chaosdramon (X Antibody)		
	1	This Digimon has [EX3-013 Chaosdramon] in its digivolution cards. and then an effect attempts to delete it. Is it possible to first activate this card's "When this Digimon would be deleted, trash the top card of your opponent's security stack" effect, trashing a security card from the opponent's security stack, and then activate [EX3-13 Chaosdramon]'s "you may trash 2 level 5 cards in this Digimon's digivolution cards to prevent it from leaving play" effect and prevent the deletion?	Yes, it is.
	2	When this card digivolves from [EX3-013 Chaosdramon], it gains all of the effects of the [Chaosdramon] in its digivolution cards. Does that mean [EX3-013 Chaosdramon]'s [On Play][When Digivolving] effect activates?	Yes, it activates. This card's "This Digimon gains all effects of [Machinedramon] and [Chaosdramon] cards in this Digimon's digivolution cards" effect is an [All Turns] effect, so it is active as soon as the digivolution is confirmed. Therefore, the [When Digivolving] effect is gained and triggered.
BT12-078	Wizardmon (X Antibody)		
	1	Can I activate "Trash the top 2 cards of your deck." of this card's [When Digivolving] effect if [Wizardmon] or [X Antibody] are in its digivolution cards when digivolving into this card ?	No, you can't. If [Wizardmon] or [X Antibody] are in the digivolution cards, this Digimon gains <Blocker> instead. You can't activate "Trash the top 2 cards of your deck".
BT12-083	Arresterdramon: Superior Mode		
	1	What does the "For each Tamer you have in play with a different color" condition in this card's [When Digivolving] effect mean?	You count each of your Tamers with different colors. If you have a 2-color Tamer card, it counts as 1 Tamer with a different color as long as 1 of the colors is different from your other Tamers. For example, if you have 1 red Tamer, 1 blue/yellow Tamer, and 1 red/yellow Tamer, you can count them as 1 red Tamer, 1 blue Tamer, and 1 yellow Tamer for a total of 3.

	2	If this Digimon has 4 or more digivolution cards, does its [End of Your Turn] effect allow it to attack even if it is suspended?	Yes, it can attack even when suspended.
	3	What happens if 2 of my [BT12-083 Arresterdramon: Superior Mode]'s [End of Your Turn] effects activate?	At the end of your turn, if both of your [BT12-083 Arresterdramon: Superior Mode]'s effects are triggered at the same time, you determine which one activates first. After effects such as [When Attacking] have activated, and before the reaction timing occurs, it is time to activate the effect of the 2nd [BT12-083 Arresterdramon: Superior Mode] that was pending activation. However, since the 1st [BT12-083 Arresterdramon: Superior Mode] is already attacking, the effect ends without an attack made. As a result, only the [BT12-083 Arresterdramon: Superior Mode] whose effect was activated first can attack.
BT12-084	JetMervamon		
	1	I activated this card's [On Play][When Digivolving] effect and all of my Digimon gained <Blocker> and can't be returned to hands or decks. If [Sparrowmon] is then trashed from this card's digivolution cards, what happens to the effects that my Digimon gained?	The effect has already activated, so even without [Sparrowmon] in the digivolution cards, the effect will continue until the end of your opponent's turn.
BT12-112	Shoutmon X7: Superior Mode		
	1	When playing this card, can the [Shoutmon] I place in its digivolution cards for its effect come from my hand, breeding area, or trash?	No, it can't. The effect only allows you to place a [Shoutmon] from the battle area in its digivolution cards.
	2	When I activate the "When this card would be played" effect and place [Shoutmon] in this card's digivolution cards, what happens to [Shoutmon]'s digivolution cards?	They're trashed.
	3	When this card's effect places [Shoutmon] in this Digimon's digivolution cards, what happens if [Shoutmon] has [BT9-109 X Antibody] in its digivolution cards?	It's not being trashed by the effect, it's being trashed because of the rules, so [BT9-109 X Antibody] does still get trashed.
	4	When I activate the "When this card would be played" effect and place [Shoutmon] in this card's digivolution cards, can I first place cards for DigiXros and only then place [Shoutmon]?	No, you can't. DigiXros is performed after all "would be played" effects have activated. Therefore, you must first place [Shoutmon] in its digivolution cards for the effect and then place cards under the [Shoutmon] digivolution card for the DigiXros.
	5	[Shoutmon]'s digivolution cards are trashed when I place it in this Digimon's digivolution cards for the "When this card would be played" effect. Can I DigiXros with those trashed cards and place them in this Digimon's digivolution cards?	Yes, you can.

	6	What does "∞ Digimon cards w/[Xros Heart] or [Blue Flare] trait & different card numbers" in this card's DigiXros requirements mean?	It means that you can DigiXros with as many cards as you like, as long as all the cards have the [Xros Heart] or [Blue Flare] trait and different card numbers.
	7	This card's DigiXros requirements say "∞ Digimon cards," but is it still considered DigiXros if I place 0 cards?	No, it's not DigiXros if you don't place any cards.
	8	If I place [Shoutmon] as a digivolution card for this card's "When you would play this card" effect, can I place another card with the same number as that [Shoutmon] as a digivolution card under this Digimon for this card's DigiXros?	Yes, you can. A [Shoutmon] placed as a digivolution card for this card's "When you would play this card" effect is not treated as placed by the DigiXros, so it is not included in this card's "different card numbers" DigiXros condition.
BT12-088	Takuya Kanbara		
	1	A Digimon with this card in its digivolution cards attacked the player while it had 10000 DP, then a security check was performed. If the [Security] effect on the flipped card reduces the DP to 9000 or less, do I still activate this card's "gain 2 memory" inherited effect?	No. If the DP is not 10000 or more when the effect activates, you can't gain 2 memory.
	2	How is the "When this Digimon checks an opponent's security" effect gained from this card's inherited effect different from "When a card is removed from your opponent's security stack"?	"When this Digimon checks an opponent's security" is triggered when the Digimon with the effect makes a security check on the opponent due to attacking them or after <Piercing>, for example. "When a card is removed from your opponent's security stack" does trigger from security checks, but it also triggers when security cards are removed for other reasons, such as effects that trash the opponent's security cards.
	3	A Digimon with this card as a digivolution card attacks a player and is deleted in battle against a Security Digimon. At that moment, can I activate this card's inherited effect to gain 2 memory?	No, this card's inherited effect is triggered after [Security] effects but before battling against the Security Digimon.
BT12-089	Takato Matsuki		
	1	After I activate this card's [Main] effect and place [Growlmon] and [WarGrowlmon] in my [Guilmon]'s digivolution cards. Can I choose to not digivolve it into [Gallantmon] in my hand?	Yes, you can. In such cases, the cards placed in [Guilmon]'s digivolution cards stay there.
BT12-090	Davis Motomiya		
	1	Can I activate this card's [Your Turn] effect when I attack with a 2-color green/blue (in that specific order) Digimon or with a Digimon that is blue and green because of an effect?	Yes, you can.
	2	Can I also activate this card's [Your Turn] effect when my 3-color Digimon with blue and green attacks?	Yes, you can.
BT12-092	Marcus Damon		
	1	This card's [Start of Your Main Phase] effect allows this Tamer to be treated as a Digimon. What does this mean, exactly?	This Tamer can perform attacks just like Digimon, and it can also be affected by effects that target Digimon. It can also be deleted in battle with a Digimon or Security Digimon.

	2	When the [Start of Your Main Phase] effect has this card also be treated as a Digimon, does this card get deleted when an opponent's effect reduces its DP to 0?	Yes, it's deleted.
	3	When the [Start of Your Main Phase] effect has this card also be treated as a Digimon and then this card is suspended, does that meet the "When this Tamer becomes suspended" condition in this card's [Your Turn] effect?	Yes, it is met. If this card's [Start of Your Main Phase] effect is activated, this card is treated as both a Digimon and a Tamer, so the "When this Tamer becomes suspended" condition is considered to be met when this card is suspended.
	4	When the [Start of Your Main Phase] effect has this card also be treated as a Digimon and then this Digimon is placed in another Digimon's digivolution cards by a "place 1 Digimon as another Digimon's digivolution card" effect, is this card treated as "a Digimon card in digivolution cards" during that turn?	No, it's not. This card's effect has the Tamer be treated as a Digimon. As soon as it is placed in another Digimon's digivolution cards, it is treated as just a Tamer card and any activated effects are lost.
BT12-098	Watchmaker		
	1	This card's [On Play] effect reveals 3 cards. If the cards revealed only include a Digimon card with <Save> in its text or a card with the [Hunter] trait, can I still add a card to my hand?	Yes, as long as either a Digimon card with <Save> in its text or a card with the [Hunter] trait is among the cards revealed, you can add it to your hand.
	2	This card's [On Play] effect reveals 3 cards. If both a Digimon card with <Save> in its text and a card with the [Hunter] trait are among the cards revealed, can I choose to only add one of them to my hand, and place the remaining card at the bottom of my deck?	No. This card's effect reads "Add 1 Digimon card [...] and 1 card [...]" among them to your hand," so you must add as many cards to your hand as possible.
BT12-099	Pyro Dragons		
	1	Does this card's [Main] effect let me attack with a suspended Digimon or with a Digimon that was played that turn?	No, it doesn't. This card's effect doesn't let you attack with a Digimon that's in a state where it can't attack.
	2	When I use this card's [Main] effect to attack, does the attacking Digimon's [When Attacking] effect activate?	Yes, it activates.
BT12-100	Final Xros Blade		
	1	Does this card's [Main] effect let me attack with a Digimon that was played that turn?	No, it doesn't. This card's effect doesn't let you attack with a Digimon that's in a state where it can't attack.
	2	When I use this card's [Main] effect to attack, does the attacking Digimon's [When Attacking] effect activate?	Yes, it activates.
BT12-102	Great Maelstrom		
	1	When I use this card's effect to place a blue Digimon as the bottom digivolution card of another Digimon, what happens to that Digimon's digivolution cards?	They're trashed.

	2	When I use this card's effect to place a blue Digimon as the bottom digivolution card of another Digimon, what happens if that Digimon has [BT9-109 X Antibody] in its digivolution cards?	It's not being trashed by the effect, it's being trashed because of the rules, so [BT9-109 X Antibody] does still get trashed.
BT12-104	Shining Blast		
	1	If I have a 2-color yellow/red Tamer, can I count it as 2 Tamers for this card's [Main] effect?	No, you can't.
	2	If I have a 2-color yellow/red Tamer, does this card's [Main] effect give 6 of my opponent's Digimon -2000 DP for the turn or 3 of my opponent's Digimon -4000 DP for the turn?	3 of your opponent's Digimon get -4000 DP. This card's effect only targets 3 of your opponent's Digimon.
BT12-105	Spiking Strike		
	1	If my Digimon attacks my opponent who has 1 security card, and I've used this card so its [Main] effect has given an opponent's Digimon the [On Deletion] effect, then delete that Digimon with a [When Attacking] effect, do I win the game by trashing the security card before the check and making it so I am attacking an opponent with 0 security cards?	Yes, in such cases you win the game.
BT12-106	Gypt Particle Cannon		
	1	My opponent played a suspended Digimon by an effect after I activated this card's [Main] effect. Does my opponent's Digimon unsuspend in my opponent's next unsuspend phase?	No, it doesn't unsuspend. This card reads "Your opponent's cards don't unsuspend during their next unsuspend phase," and this also affects cards that were later played or moved to the battle area.
BT12-107	Laplace's Demon		
	1	Can I choose an opponent's Digimon with a "can't attack" effect as the target when I activate this card's [Main] effect?	Yes, you can. However, in such cases the "can't attack" effect prevents making the attack.
	2	What happens if this card's effect activates twice and 2 of my opponent's Digimon gain the "[Start of Your Main Phase] Attack with this Digimon" effect?	At the start of your opponent's main phase, the effects gained from this card's effect are triggered at the same time, and your opponent determines which one activates first. After effects such as [When Attacking] have activated, and before the reaction timing occurs, it is time to activate the effect of the 2nd Digimon that was pending activation. However, since the 1st Digimon is already attacking, the effect ends without an attack made. As a result, only the Digimon whose effect was activated first can attack.
	3	What happens if this card's effect is activated on an opponent's Digimon with an "[Opponent's Turn] This Digimon isn't affected by your opponent's effects" effect?	You can still choose a "this Digimon isn't affected by your opponent's effects" Digimon as a target for the effect. As soon as it becomes your opponent's turn, that opposing Digimon loses the "this Digimon isn't affected by your opponent's effects" effect and is affected by this card's effect. As a result, the attack occurs at the start of the main phase.

BT12-110	Seventh Full Cluster		
	1	When exactly is the timing for "[Trash] [Your Turn]"?	When this card is in your trash, the effect can activate when one of your Digimon digivolves into [Beelzemon (X Antibody)]. [Trash] means that the card needs to be in your trash for the effect to activate.
	2	What happens to the color requirements and cost when I activate this card's [Trash] effect?	When activating the effect from your trash, it's not considered to be using an Option card, so there are no color requirements and no cost to be paid.
	3	Are "when using an Option card" effects triggered if I activate this card's [Trash] effect?	No. Activating an effect from your trash isn't considered to be using an Option card, so they don't trigger.
