	When this card is a digivolution card of a Digimon with <Digi-Burst> that activates at [On Play] or [When Digivolving] timings, is this card's inherited effect not applied outside of those timings?	This card's inherited effect is applied even during times where the Digimon can't activate <Digi-Burst>.
	When this card is a digivolution card of a Digimon with <Digi-Burst> that requires a certain amount of digivolution cards to activate, is this card's inherited effect not applied unless the Digimon can activate <Digi-Burst>?	This card's inherited effect is applied even if the Digimon doesn't have enough digivolutions to activate <Digi-Burst>.
BT4-006	Xiaomon	
	I have 9 cards in my trash and a Digimon with this card as a digivolution card is deleted in battle. The deleted cards, including this one, are sent to my trash, and now I have over 10 cards in my trash. Does this card's <Retaliation> activate?	No. You lose this card's inherited effect when it is placed in the trash, so it can't activate.
	I have 10 or more cards in my trash and a Digimon with this card as a digivolution card is deleted in battle. Before this card has a chance to resolve, another effect resolves and reduces the number of cards in my trash to 9 or less. Does this card's <Retaliation> activate?	Yes. When the Digimon was deleted, you had over 10 cards in your trash, so this card's inherited effect would still be active and <Retaliation> would activate.
BT4-008	Agumon	
	If this card is a digivolution card and is trashed by <Digi-Burst>, when does this card return to the hand: before or after the resolution of <Digi-Burst>?	After the resolution of <Digi-Burst>.
BT4-011	Agunimon	
	If this card has a tamer card as a digivolution card, does the [Security] effect of that tamer card become an inherited effect?	No, it doesn't.
	Can this card digivolve on top of a Level 3 Digimon that meets its requirements instead of a tamer card?	Yes, it can.
	If I use this card's effect to make a tamer card into a digivolution card, is that card affected by effects that say "trash digivolution cards"?	Yes, it is. However, if the effect specifies Digimon cards, Digi-Egg cards, or any other type of card that isn't a tamer card, it can't be targeted by that effect.
	If I digivolve this card on top of a tamer card, do I still get the digivolution bonus?	Yes, you do. Even if you digivolve using a tamer card, make sure to draw 1 card as the digivolution bonus.
	Can I attack the turn I digivolve this card on top of a tamer card?	Yes. Digivolution doesn't count as playing, so you can attack that turn.

	Can I attack the turn I played a tamer card if I then digivolve this card on top of it?	No. Since it's the first turn the tamer was played, the limitation for attacking on the first turn a card is played still applies.
	If I've digivolved this card on top of a tamer card and the Digimon is deleted, what happens to the tamer card?	It is trashed.

BT4-016	Aldamon	
	Does this card get +8000 DP if it has a Digimon card with [Hybrid] in its form and a red tamer as digivolution cards?	No. Even if it has both of those cards as digivolution cards, it only gets +4000 DP.
BT4-017	RizeGreymon	
	If this card is in my hand, deck, or trash and another copy is revealed in a security check, is this Digimon treated as a yellow card?	No. When a card is in any area other than your battle area, [Your Turn] effects do not apply. So this card is not treated as a yellow card and is treated only as a red card.

	When this card is in the breeding area, can I digivolve a Digimon on top of it that requires a yellow Digimon?	No. [Your Turn] effects do not apply in the breeding area, so this card is not treated as a yellow card and is treated only as a red card.
BT4-020	ShineGreymon	
	If 2 of my red and/or yellow tamers are suspended at the same time, does this Digimon gain <Security Attack +2>?	No. Even if multiple of your red and/or yellow tamers are suspended at the same time, there is still only one instance of cards being suspended, so this card only gains <Security Attack +1>.
	If 2 of my red and/or yellow tamers are suspended at different timings, does this Digimon gain <Security Attack +2>?	Yes. If your red and/or yellow tamers are suspended at 2 different timings, this card would gain <Security Attack +1> twice, giving it <Security Attack +2>.
BT4-021	Gaomon	
	If this card is a digivolution card and is trashed by <Digi-Burst>, when does this card return to the hand: before or after the resolution of <Digi-Burst>?	After the resolution of <Digi-Burst>.
BT4-023	Strabimon	
	Am I unable to add cards to my hand with this card's effect if a Digimon card with [Hybrid] and a blue tamer aren't both in the cards I've revealed?	As long as one or the other is in the cards you revealed, you can add it to your hand.
BT4-025	Lobomon

	Is this card treated as a Garurumon card?	No. This card isn't treated as a Garurumon card.
BT4-030	Beowolfmon	
	What does this card's "this card can't be attacked" [Opponent's Turn] skill mean?	It means that as long as you meet the conditions for the skill, the card can't be targeted by your opponent's Digimon for attacks.
	What happens if this card activates <Blocker> in response to the attack of one of my opponent's Digimon?	This card's effect only prevents your opponent's Digimon from attacking you, so <Blocker> will work as normal.
BT4-032	MachGaogamon	
	Does this card's inherited effect work with any color of tamer?	Yes. Since there's no color specified in the effect, it will work with any color tamer.
BT4-034	Regalecusmon	
	When this Digimon attacked, my opponent didn't have any Digimon with digivolution cards, and I wasn't able to use the [When Attacking] effect to trash digivolution cards. Do I still get to trigger <Draw 1> and gain 1 memory?	No. If you didn't trash any digivolution cards with the [When Attacking] effect, you don't get to trigger <Draw 1> or gain 1 memory.

BT4-035	MirageGaogamon	
	When I digivolved into this card, my opponent had 3 or less cards in their hand. Do I still gain memory from the [When Digivolving] effect?	No, you don't.
	What exactly does "this Digimon is unblockable" mean?	It means your opponent's Digimon can't use the <Blocker> skill in response to this Digimon's attacks.
	Does "this Digimon is unblockable" mean this Digimon can't attack my opponent's suspended Digimon?	No. Attacking suspended Digimon isn't blocking, so you can attack them.
BT4-037	Kudamon	
	If I have no cards left in my security stack, can I use this card's [On Play] effect to decrease the DP of 1 of my opponent's Digimon by 2000?	No. You don't have any security cards to trash, so you can't use this effect.
BT4-047	Rasielmon	
	Does this card's [At End of Opponent's Turn] effect mean that if I have no cards left in my security stack, at the end of my opponent's turn I lose the game?	No. The effect only trashes cards from your security stack and isn't the same as you taking an attack. If you have no cards left in your security stack at the end of your opponent's turn, you continue the game as normal.
	Do the [Security] effects on cards trashed by this card's [At End of Opponent's Turn] effect activate?	No, they don't.
	If I have multiple copies of this Digimon in my Battle Area, do I trash multiple security cards at the end of my opponent's turn?	Yes, you do.
BT4-048	WarGreymon	
	Do I have to use this card's effect whenever I attack?	No, it's up to you whether or not you use it.
	Can I use this card's [When Attacking] effect if I have no cards left in my security stack?	No. If you can't add cards from your security stack to your hand, you can't use the effect.
	I attack with this Digimon, then use its [When Attacking] effect to unsuspend it and give 1 of my opponent's Digimon -6000 DP. If I attack again on the same turn, can I give 1 of my opponent's other Digimon -6000 DP?	No. The effect has [Once Per Turn], so it doesn't activate on any attacks past the first one.
BT4-052	Lalamon	

	If this card is a digivolution card and is trashed by <Digi-Burst>, when does this card return to the hand: before or after the resolution of <Digi-Burst>?	After the resolution of <Digi-Burst>.
BT4-054	Sunflowmon	
	Can this card's effect be used on my opponent's unsuspected Digimon?	No. The effect targets "1 of your opponent's suspended Digimon," so you can't target unsuspected Digimon.
BT4-058	Orochimon	
	Can I use this card's effect on [Orochimon] itself?	Yes, you can.
BT4-059	Lilamon	
	Can this card's inherited effect be activated no matter what color my Tamer is?	Yes, since there's no color specified.
BT4-060	Lotosmon	
	Can I use this card's effect to suspend one my own Digimon?	Yes, as long as it's a level 4 or lower Digimon, you can suspend it -- including your own Digimon.
	Can I use this card's effect to suspend a level 4 Digimon when it Digivolves?	No, digivolving doesn't count as the card being played, so you can't suspend it.
	Can I use this card's effect to suspend a level 4 or lower Digimon when it moves from the breeding area to the battle area?	No. Moving from the breeding area doesn't count as the card being played, so you can't suspend it.
BT4-062	Nidhoggmon	
	Can I use this card's effect to return Digimon that were already suspended to their owners' decks?	Yes, you can.
BT4-064	Sunarizamon	
	If this card is a digivolution card and is trashed by <Digi-Burst>, when does this card return to the hand: before or after the resolution of <Digi-Burst>?	After the resolution of <Digi-Burst>.
BT4-066	Golemon	
	Does this card apply to [Golemon] itself?	Yes, it does.
BT4-071	Tankdramon	

	I have 2 copies of this Digimon in my battle area, and both area deleted at the same time by an opponent's skill. Do both copies activate their [On Deletion] skills?	Both cards fulfill the "When one of your other Digimon with [D-Brigade] in its type is deleted" requirement, so the skills on both cards are activated.
BT4-072	Gogmamon	
	Can I use this card's effect on [Gogmamon] itself?	Yes, you can.
BT4-075	Blastmon	
	What exactly does this card's [When Attacking] effect do?	When this Digimon attacks, no matter what its target is, this effect allows your opponent to choose any of their unsuspending Digimon. If they do, this Digimon is forced to attack it instead.
	When attacking with this card, am I required to announce the target of attack?	Yes, you are.
	Can I use this card's [When Attacking] effect to attack my opponent's unsuspending Digimon?	You can't announce that you're attacking an opponent's unsuspending Digimon, but your opponent can force this Digimon to attack one of their unsuspending Digimon <i>if they choose to</i> .
BT4-077	Ghostmon	
	If this card is a digivolution card and is trashed by <Digi-Burst>, when does this card return to the hand: before or after the resolution of <Digi-Burst>?	After the resolution of <Digi-Burst>.
BT4-078	Soundbirdmon	
	Can I use this card's effect to trash 2 Option cards in my hand to gain 2 memory?	No, you can only trash 1 Option card per attack, so you can only gain 1 memory.
BT4-084	NeoDevimon	
	If my opponent uses the effect on a card like [BT2-041 ShineGreymon] to suspend 2 or more of their Tamers, does this card's inherited effect allow me to gain a memory for each Tamer suspended?	No. Even if your opponent suspends multiple Tamers simultaneously, this card's inherited effect treats all of it as a single timing instance, so you only gain 1 memory.
BT4-086	Cerberusmon: Werewolf Mode	
	Can I use this card's [On Play] effect to delete this card itself to gain 9 memory?	No, this card's [On Play] effect can delete [Cerberusmon], which is a different card from [Cerberusmon: Werewolf Mode]. As such, you can't use it to delete this card itself.

	Can I use this card's [On Play] effect to delete one of my other [Cerberusmon: Werewolf Mode] cards to gain 9 memory?	No, this card's [On Play] effect can delete [Cerebusmon], which is a different card from [Cerberusmon: Werewolf Mode]. As such, you can't use it to delete this card itself.
BT4-087	Anubismon	
	Do Digimon played from the trash with this card's [When Digivolving] effect also gain <Rush> from this card's [Your Turn] effect?	Yes, they do.
	If I use this card's effect to play a Digimon from the trash, then digivolve that Digimon during the same turn, does that Digimon gain <Rush>?	Yes, it does. Digimon that gain <Rush> from this card's effect keep it after Digivolving, and can attack the turn they come into play.
BT4-088	DanDevimon	
	You use this card's [Opponent's Turn] effect to trash a card in your opponent's security stack. Does that card's [Security] effect activate?	No, it doesn't.
	Which player chooses the cards to trash from your opponent's hand with this card's [On Deletion] effect?	Your opponent chooses the 2 cards to trash from their hand.
	While this Digimon is in my battle area, my opponent's Digimon checks my security stack and flips over [BT1-107 Holy Wave]. Its [Security] effect activates, adding a card to my security stack. I ended up with the same number of cards in my security stack, but does this card's [Opponent's Turn] effect still activate?	Yes, a card was removed from your security stack, so it activates.
	I have 2 copies of this Digimon in my battle area when an opponent's Digimon does a security check, removing a card from my security stack. Do the [Opponent's Turn] effects on both copies activate, trashing 2 of my opponent's security cards?	Yes, they both activate, trashing 2 of your opponent's security cards.

	If my opponent uses a card like [BT2-020 Gallantmon] to trash a card in my security directly, does this card's effect activate?	Yes, it does.
BT4-090	Chaosmon	
	I pay memory to digivolve into this Digimon. Can I use this card's [When Digivolving] effect to attack even though my memory gauge is now at 1 or greater on my opponent's side?	Yes, you can. It doesn't become your opponent's turn until the attack ends or you declare that you're not making an attack.
	I play a Digimon, then digivolve into this card on the same turn. Can I attack with it?	No, this effect doesn't ignore the ironclad rule that Digimon can't attack the turn they came into play, so you can't attack.
	If I have other effects that activate on digivolution, can I attack before resolving those effects after digivolving into this card?	No. While you can resolve this card's [When Digivolving] effect first and announce your attack, you must resolve all other effects before resolving the attack itself.
	Can I attack my opponent's unsuspected Digimon with this card when not attacking through its [When Digivolving] effect?	No, you can't.
BT4-091	Chaosmon: Valdur Arm	
	Can I use this card's [When Digivolving] skill on the same Digimon twice in a row?	Yes, you can.
	Can I use this card's [When Digivolving] skill once, take a different action, then use it a second time?	No, you can't.
BT4-094	Tai Kamiya	
	Does this card's effect grant +1000 DP no matter what color my Digimon are?	Yes, there's no color specified, so the +1000 DP is granted no matter what color your Digimon are.
BT4-095	Yoshino Fujieda	
	Can I only use this card's [Your Turn] effect when digivolving into a Digimon with [When Digivolving] <Digi-Burst>?	No, you can use it when digivolving into any Digimon with <Digi-Burst>.
BT4-097	Kari Kamiya	

	When my opponent's Digimon attacks and checks my security, I use this card to gain 1 memory, moving the memory counter to 1 on my side. Does the attack end, even if my opponent's Digimon has checks remaining from <Security Attack +1>?	No, as long as there are attacks and effects that haven't finished resolving yet, the attack continues, regardless of the memory gauge's current position.
	While this Tamer is in my battle area, my opponent's Digimon checks my security stack and flips over [BT1-107 Holy Wave]. Its [Security] effect activates, adding a card to my security stack. The number of cards in my security stack remained the same, but can I still suspend this card to gain 1 memory?	Yes, because a card was removed from your security stack.
	While this Tamer is in my battle area, I use [BT1-087 Matt Ishida]'s effect to add a yellow card from my security stack to my hand, triggering <Recovery +1 (Deck)> and adding a card to my security stack. The number of cards in my security stack remained the same, but can I still suspend this card to gain 1 memory?	Yes, because a card was removed from your security stack.
	If my opponent uses a card like [BT2-020 Gallantmon] to trash a card in my security directly, can I use this card's effect?	Yes, you can.
	If I use an effect like [BT4-104 Blinding Ray] to remove cards from my own security stack, can I use this card's effect?	Yes, you can.
BT4-098	Atomic Inferno	
	I use this card on one of my Digimon, which I use to attack an opponent's Digimon. Does this count as the Digimon being blocked? Do I gain 3 memory?	No, your opponent has to use <Blocker> to block the attack in order for you to gain 3 memory.
	I activate this card's [Security] effect. I move a Digimon from my breeding area to the battle area, then play a Digimon from my hand. Do these Digimon get <Security Attack +1> from this card's effect?	Yes. The effect applies to all of your Digimon, including those that enter the Battle Area after the start of your turn.
BT4-100	Trident Revolver	

	Can I use this card when my opponent doesn't have a Digimon with 6000 DP or less in play to play a Tamer card with a play cost of 4 or less from my hand without paying its memory cost?	Yes, you can.
BT4-101	I'll Drag You Into the Depths!	
	I use this card to grant my Digimon this card's effect. I then use one of my Digimon to attack an opponent's Digimon with no digivolution cards. Does my opponent's Digimon get deleted in battle?	No, it's deleted by this card's effect.
	My opponent uses this card during their turn, then attacks one of my Digimon with no digivolution cards. Can I use <Blocker> on one of my other Digimon to prevent that Digimon from being deleted?	No. This card's effect deletes your Digimon before you can announce blockers.
	My opponent uses this card during their turn, then attacks one of my Digimon with no digivolution cards. Can I use <Blocker> on one of my other Digimon to force it to attack that Digimon?	Yes, you can.
	My opponent uses this card during their turn, then attacks one of my Digimon with no digivolution cards. If I use <Blocker> on one of my other Digimon, will it be deleted by this card's effect?	No, the effect granted by this card will have already resolved before you announce <Blocker>. Even if you use <Blocker> to force the target of attack to change, the blocking Digimon won't be deleted, and will battle normally.
	One of my Digimon has been granted the effect from this card. If I use it to attack an opponent's Digimon with higher DP, is my Digimon deleted after losing the battle?	No, you can delete your opponent's Digimon with this card's effect before the battle begins. The attacking Digimon is not deleted.

	I use this card, then attack an opponent's Digimon with no digivolution cards using a Digimon with <Piercing>. Does <Piercing> take effect?	No, a Digimon with <Piercing> has to attack and delete an opponent's Digimon and <i>survive the battle</i> , but this card's effect deletes the opposing Digimon before the battle begins. As such, <Piercing> does not apply.
	I use [BT-112 Dimension Scissor], which allows 1 of my Digimon to unsuspend every time it deletes an opponent's Digimon. If I then use this card and attack an opponent's Digimon with no digivolution cards, can I unsuspend my Digimon using Dimension Scissor's effect after deleting the opponent's Digimon using this card's effect?	No, Dimension Scissor requires the Digimon to attack and delete an opponent's Digimon and <i>survive the battle</i> . This card's effect deletes the opposing Digimon before the battle begins, so the effect doesn't apply.
	I use this card, then attack an opponent's Digimon with 1 digivolution card. If I use a [When Attacking] effect to trash the opposing Digimon's digivolution card, what happens?	The opponent's Digimon still has digivolution cards at the time you declared the attack, so you can't use this card's effect to delete it.
BT4-103	Full Moon Blaster	
	My opponent has 7 cards in hand. I use this card to return their Digimon to their hand, resulting in them having 8 cards in hand. Does my opponent place that Digimon at the bottom of their deck?	No, this card's effect already returned the Digimon to their hand. The effect doesn't activate again, and the Digimon you chose remains in your opponent's hand.
BT4-104	Blinding Ray	
	If I use this card when my security stack is empty, do I gain 2 memory?	Yes. "Trash the top of your security stack" isn't listed as a condition you have to meet to gain 2 memory. If your security stack is empty, you simply don't trash any security cards, then gain 2 memory.
BT4-105	Tactical Retreat!	
	I use this card's effect to place a Digimon on top of my security stack. Does that Digimon's [On Deletion] effect(s) activate?	It wasn't deleted, so [On Deletion] effects don't activate.
BT4-108	Cyclonic Kick	
	Can I use this card when I have no Digimon to suspend an opponent's Digimon? Can I use this card when my opponent has no Digimon to unsuspend my own Digimon?	Yes, both are possible.
BT4-109	Final Zubagon Punch	
	I use this card's effect to give a Digimon +3000 DP. If that Digimon now has 16000 DP or more, does it gain <Blocker>, <Reboot>, and <Security Attack +1>?	Yes, it does. Even if the Digimon's original DP is less than 16000, if it becomes 16000 or greater after getting +3000 DP from this card's effect, it gains <Blocker>, <Reboot>, and <Security Attack +1>.

	I use this card's effect to give one of my Digimon <Blocker>, <Reboot>, and <Security Attack +1>. If another effect reduces that Digimon to 15000 or less, does it lose <Blocker>, <Reboot>, and <Security Attack +1>?	No. Once the Digimon meets the conditions to gain <Blocker>, <Reboot>, and <Security Attack +1>, it keeps them until the end of your opponent's next turn, even if its DP is reduced to 15000 or less.
	I use this card's effect to give a Digimon +3000 DP, but it still has less than 16000 DP. If I then use another DP-boosting effect to raise its DP to 16000 or more, does it gain <Blocker>, <Reboot>, and <Security Attack +1>?	No. If the Digimon doesn't have 16000 DP or more when this card's effect resolves, the Digimon doesn't gain <Blocker>, <Reboot>, and <Security Attack +1>.
BT4-110	Dark Roar	
	This card has an effect that reads, "For each of your Digimon with [D-Brigade] in its type, add +1 to the maximum play cost of the Digimon you can choose with this effect." What does this mean?	If you have a Digimon with [D-Brigade] in its type, you can choose a Digimon with a play cost of 4 or less. (3 or less + 1 = 4 or less.) If you have 2 Digimon with [D-Brigade], you can choose a play cost of 5 or less, if you have 3 Digimon it becomes 6 or less, and so on.
BT4-111	Jack Raid	
	If I use this card when I have 9 cards in my trash, does this card become the 10th card in my trash, allowing me to gain 1 memory?	No, Option cards go to the trash after their effects resolve, so you still have 9 cards in your trash when the effect checks to see how many cards there are. You don't gain 1 memory.
BT4-114	AncientGarurumon	
	Can I use this card's [When Attacking] effect on [AncientGarurumon] itself?	Yes, you can.
