BT8-006	DemiMeramon	
	Does this card's inherited effect activate when one of my own effects trashes a card from my deck?	Yes, it does.
	One of my effects reveals cards from the top of my deck and trashes one or more of them. Does this cause this card's inherited effect to activate?	No, cards revealed from the top of your deck aren't considered to be "trashed from your deck," so this card's inherited effect doesn't activate.
BT8-009	Hawkmon	
	Can this card's effect add a 2-color Option card to my hand if one of its colors is red?	Yes, it can.
	Can this card's effect add a card with "This Digimon is also treated as red" to my hand?	No, it can't.
BT8-010	Aquilamon	
	If I have 2 yellow Digimon in play, does this effect reduce this card's play cost by 2?	No. Even if you have 2 yellow Digimon in play, this effect can only reduce the play cost by a maximum of 1.
BT8-012	Flamedramon	
	After this Digimon gets +3000 DP from the [When Attacking] effect, its <Armor Purge> activates. What happens to the +3000 DP?	The effect has already been activated, so the +3000 DP effect persists for the turn.
BT8-016	MasterTyranomon	
	Does this card's [Your Turn] effect also count this Digimon itself as a Digimon with [Tyranomon] in its name, granting it <Security Attack +1>?	Yes, it does.
BT8-019	Zhuqiaomon	
	How does this card's [When Digivolving] effect work, exactly?	Your opponent chooses 1 of their Digimon. Next, delete all Digimon in play, from both you and your opponent, except for this Digimon and the Digimon your opponent chose. Then you gain 1 memory for every Digimon that was deleted by this effect.

	Does this card's [When Digivolving] effect delete Digimon in breeding areas, too?	No, Digimon in breeding areas cannot be affected by effects, so they aren't deleted.
	For this card's [When Digivolving] effect, can my opponent choose a Digimon in their breeding area?	No, Digimon in breeding areas cannot be affected by effects, so they can't be chosen. Additionally, note that this effect doesn't delete Digimon in breeding areas, regardless of whether they could be chosen or not.
	How does this card's [When Digivolving] effect work if my opponent has no Digimon in play?	All of your other Digimon besides this one are deleted, and you gain 1 memory for each Digimon deleted in this way.
	When this card's [When Digivolving] effect deletes Digimon in play, can you and your opponent activate <Decoy>, <Armor Purge>, and similar effects to prevent their deletion?	Yes, you can.
BT8-020	Patamon	
	How does this card's inherited effect work, exactly?	At the end of your turn, this effect allows you to DNA digivolve a Digimon with this card in its digivolution cards, along with one of your other Digimon, into a Digimon in your hand that has [DNA Digivolution]. Note that this happens before it becomes your opponent's turn.
	With this card's inherited effect, can I DNA digivolve into a Digimon card in my hand that doesn't have [DNA Digivolution]?	No. You can't ignore the digivolution requirements, so you can't DNA digivolve into a Digimon card that doesn't have [DNA Digivolution].
	Does this card's inherited effect allow me to DNA digivolve Digimon that don't match the color and level specified by the [DNA Digivolution] requirements of the Digimon card in my hand?	No. You can't ignore the digivolution requirements, so you can't DNA digivolve Digimon that don't have the specified color and level.

	Can this card's effect add a card with "This Digimon is also treated as blue" to my hand?	No, it can't.
BT8-023	Submarimon	
	My opponent doesn't have any Digimon with digivolution cards in play, meaning this card's [When Digivolving] effect can't trash the bottom digivolution card of 1 of my opponent's Digimon. Do I still activate the "1 of your opponent's Digimon with no digivolution cards gets -3000 DP for the turn" part of the effect?	Yes. Even if you can't trash any of your opponent's digivolution cards, you still get to give -3000 DP to 1 of their Digimon with no digivolution cards.
BT8-024	Angemon	
	When this card's [Your turn] effect activates and I <Recovery +1 (Deck)>, when exactly does this happen?	The effect triggers "when this Digimon would digivolve," so it occurs after declaring the digivolution, but before paying the digivolution cost.

	Does this card's [Your Turn] effect also activate when DNA digivolving?	Yes, it does.
BT8-028	CaptainHookmon	
	Does this card's effect activate when your opponent's Digimon digivolves to level 5 or higher?	No, digivolving doesn't count as playing a card, so the effect doesn't activate.
	Does this card's effect activate when your opponent moves a level 5 or higher Digimon from the breeding area to the battle area?	No, moving a Digimon from your breeding area doesn't count as playing it, so the effect doesn't activate.
BT8-029	Frozomon	
	If my opponent has a Digimon with digivolution cards in their breeding area, can this Digimon attack?	Yes. Digimon in breeding areas aren't counted by the effect, so this Digimon can attack.
	Does this card's inherited effect activate when my opponent activates <Digi-Burst>?	Yes, it does.
BT8-032	Imperialdramon Fighter Mode	
	If both blue and green cards are in this card's digivolution cards, do I activate both parts of this card's [When Attacking] effect?	Yes, you do.

	Can I use this card's effect to add a two-color Option card to my hand if one of its colors is yellow?	Yes, it can.
	Can this card's effect add a 2-color card with "This Digimon is also treated as yellow" to my hand?	No, it can't.
BT8-036	Ankylomon	
	If the Digimon with this card in its digivolution cards is itself blue, does this card's inherited effect activate?	Yes, it does.
BT8-038	Magnamon	
	After I use this card's [When Digivolving] effect to gain +2000 DP for each card with [Armor Form] in its traits in my trash, I use <Armor Purge> to trash this card. What happens to the DP boost?	The effect has already been activated, so the DP boost persists for the turn.
BT8-039	Rapidmon	
	If I have 2 Tamers in play, can this card's [When Digivolving] effect give up to 6 of my opponent's Digimon -5000 DP?	No. No matter how many Tamers you have in play, the effect gives -5000 DP to up to 3 of your opponent's Digimon.
BT8-040	Betsumon	
	This card's effect trashes a red card in my hand. Does this make this Digimon a red/yellow 2-color Digimon, allowing me to <Draw 2>?	Yes, the Digimon is now treated as having two colors, so you <Draw 2>.

	This card's effect trashes a blue/green multicolor card in my hand. Does this make this Digimon a yellow/blue/green 3-color Digimon?	Yes, the Digimon is now treated as having three colors.
BT8-043	Cherubimon	
	If I have multiple Tamers in play, can this card's [On Play][When Digivolving] effect give <Security Attack -2> to a different one of my opponent's Digimon for each Tamer I have in play?	Yes. The effect activates for each Tamer you have in play, and you can choose a different target for each activation.
	When I activate this card's [On Play][When Digivolving] effect multiple times, is each activation treated as its own timing?	No, it's treated as a single timing.
BT8-044	Azulongmon	
	I digivolve one of my suspended Digimon into this Digimon. Does this card's [Your Turn] effect let me unsuspend this Digimon itself?	No, it doesn't. This Digimon's [Your Turn] effect only triggers when your other Digimon digivolve.
BT8-048	Shurimon	
	If I choose an opponent's Digimon for this card's [When Digivolving] effect, and that Digimon loses <Blocker> due to digivolving, <De-Digivolve>, or some other reason, can that Digimon now attack and block again?	No. Once a Digimon with <Blocker> is targeted by this card's [When Digivolving] effect, it becomes unable to attack or block until the end of your opponent's next turn, even if it loses <Blocker>.
BT8-050	Exermon	
	With this card's [When Digivolving] effect, can I suspend this Digimon itself in order to suspend 1 of my opponent's Digimon?	Yes, you can.
BT8-057	Shivamon	
	My opponent has this Digimon in play. During my turn, I use an Option card like [BT1-109 Smashed Potatoes] or [EX1-071 Win Rate: 60%!], which has an effect that activates "the next time one of your Digimon digivolves". After that, all of my opponent's Digimon become suspended. If I then digivolve one of my Digimon, are the effects from the Option cards I used earlier negated?	No. You already used the Option cards and activated their effects, so this card's [Opponent's Turn] effect can't negate them.
	My opponent has this Digimon in play. If I have an Option card with <Delay> that I used from my hand earlier, can I activate its <Delay> effect?	Yes, you can. Activating <Delay> on Option cards that are already in your battle area doesn't count as using an Option card.
BT8-059	Kokuwamon	
	How does this card's effect work, exactly?	This effect prevents all players from digivolving with effects that say "ignoring digivolution requirements" or otherwise digivolving from Digimon without meeting digivolution requirements.

	Does this card's effect also prevent the effects on [Hybrid] cards like "You may digivolve this card from your hand onto one of your red Tamers as if the Tamer is a level 3 red Digimon"?	No. Those effects don't mention "ignoring digivolution requirements," and require you to follow the specified digivolution requirements when digivolving a Tamer as if they were a Digimon.
	Does this card's effect prevent DNA and special digivolutions?	No. DNA and special digivolutions are treated as a card's digivolution requirements, so you can still perform both as normal.
	If this Digimon is in play, can I activate an effect that reads, "you may digivolve... without paying its memory cost"?	Yes. The effect doesn't ignore digivolution requirements—it just lets you skip paying the memory cost—so you can activate it as normal.
BT8-061	Thundermon	
	Does this card's effect cause it to be treated as if it had the name [Mamemon] while it's in my hand, deck, or trash?	Yes, that's correct.
	Does this card's effect cause it to be treated as if it had the name [Mamemon] while it's in my breeding area?	No, effects can't activate from the breeding area, so this card isn't treated as a card/Digimon with the name [Mamemon] while it's in your breeding area.
BT8-062	SkullKnightmon Cavalier Mode	
	Does this card's effect cause it to be treated as if it had the names [SkullKnightmon] and [DeadlyAxemon] while it's in my hand, deck, or trash?	Yes, that's correct.
	Does this card's effect cause it to be treated as if it had the names [SkullKnightmon] and [DeadlyAxemon] while it's in my breeding area? BT8-064	Greymon	
	If the Digimon with this card in its digivolution cards is itself red, does this card's inherited effect activate?	Yes, it does.
BT8-065	CatchMamemon	
	Can this card's effect add a total of up to 4 Digimon cards with [Mamemon] in their names from both my hand and/or trash to the top of my deck?	Yes, you can add up to 4 cards in any combination from your hand and/or trash.
BT8-066	Hisyaryumon	
	Can this card's [Your Turn] effect digivolve it into any Digimon card regardless of digivolution requirements, so long as it has [X-Antibody] in its traits?	No. Digivolution requirements cannot be ignored unless an effect explicitly instructs you to ignore them.
BT8-068	BanchoMamemon	

	How does this card's [When Digivolving] effect work if my opponent has no Digimon in play?	You can reveal 3 cards, then trash all of them. Note that the effect reads, "you may," so you can choose whether or not to activate the effect when digivolving, regardless of whether or not your opponent has any Digimon in play. If you choose not to activate it, you don't reveal or trash any cards.
	What does "memory cost of 10 or less" refer to?	Play cost.
BT8-070	BlackWarGreymon	
	If this card has both red and black digivolution cards, can this card's [When Digivolving] effect delete both Digimon and Tamers?	Yes, it can.
	If this card has both red and black digivolution cards, can this card's [When Digivolving] effect delete both 6 play cost worth of my opponent's Digimon, and 6 play cost worth of my opponent's Tamers?	No. The total play costs of the chosen Digimon and Tamers must add up to 6 or less.
	If a single red and black multicolor card is in this card's digivolution cards, can I activate both parts of this card's [When Digivolving] effect?	Yes, you can.
BT8-071	Psychemon	
	How does this card's "Players can't reduce play costs" effect work, exactly?	It prevents effects that reduce play costs. Even if you or your opponent activates an effect that reduces play costs, the cost that is paid cannot actually be reduced. Players must pay the full play cost printed on cards.
	If this Digimon is in play, can I activate an effect that reads, "play <a card>...without paying its memory cost"?	Yes. Effects that play cards without paying their memory costs are skipping the costs entirely, not reducing them.
BT8-072	DemiDevimon	
	If I reveal a non-purple Digimon card with this card's [On Play] effect, can I trash it?	No. This card's effect can only trash purple Digimon cards.
BT8-074	Soulmon	
	Is this card's effect triggered by the activation of an effect that reads, "Reveal the top X cards of your deck... Trash the remaining cards."?	No, cards revealed from the top of your deck aren't considered to be "trashed from your deck," so this card's effect doesn't trigger.
BT8-079	SkullSatamon	
	Is this card's inherited effect triggered by the activation of an effect that reads, "Reveal the top X cards of your deck... Trash the remaining cards."?	No, cards revealed from the top of your deck aren't considered to be "trashed from your deck," so this card's effect doesn't trigger.
	Is this card's inherited effect triggered by the activation of an effect that reads, "Reveal the top X cards of your deck... Trash the remaining cards."?	No, cards revealed from the top of your deck aren't considered to be "trashed from your deck," so this card's effect doesn't trigger.

	If a single purple and yellow multicolor card is in this card's digivolution cards, can I activate both parts of this card's [When Digivolving] effect?	Yes, you can.
BT8-084	Kimeramon	
	How does this card's [Your Turn] effect work, exactly?	The effect allows this card to be treated as both white (its original color), and as the colors of its digivolution cards. For example, if a red card and green card are in this card's digivolution cards, this card is treated as a 3-color white/red/green card.
BT8-085	Yolei Inoue	
	This card has an effect that reads, "When one of your Digimon with 2 or more colors attacks"—does this include the colors of the attacking Digimon's digivolution cards?	No. The effect can only be activated if the Digimon itself has 2 or more colors.
BT8-087	T.K. Takaishi	
	Is this card's [Opponent's Turn] effect triggered when I block an opponent's attack with one of my blue Digimon?	No. The effect only triggers when your opponent chooses one of your blue Digimon as a target of attack.
BT8-088	Davis Motomiya & Ken Ichijoji	
	Can I activate both parts of this card's [Start of Your Main Phase] effect if I have both a blue Digimon and green Digimon in play?	Yes, you can.

BT8-089	Cody Hida	
	This card has an effect that reads, "When one of your Digimon with 2 or more colors attacks"—does this include the colors of the attacking Digimon's digivolution cards?	No. The effect can only be activated if the Digimon itself has 2 or more colors.
BT8-094	Digimon Emperor	
	Does this card's [Opponent's Turn] effect activate when an effect from a card like [BT1-089 Mimi Tachikawa] moves a level 3 Digimon from your opponent's breeding area to their battle area outside of their breeding phase?	Yes, it does.
BT8-096	Top Gun	
	Does this card's "If you have a Digimon in play with...2 or more colors in one of its digivolution cards" count a Digimon that has both a red card and a blue card in its digivolution cards?	No, it doesn't. The effect is looking for a Digimon with a digivolution card that has 2 or more colors.

	Does this card's "If you have a Digimon in play with...2 or more colors in one of its digivolution cards" count a Digimon with a card like [BT3-040 Shakkoumon]'s "This Digimon is also treated as blue" in its digivolution cards?	No, it doesn't. Effects that grant additional colors don't do anything as digivolution cards, so the card is only treated as a single color.
BT8-097	Crimson Blaze	
	If my opponent has 7 or more Digimon in play, does this card's effect get reduced to negative 1, effectively gaining me a memory for using it?	No. It just reduces the cost of the card to 0. Note that in general, costs can't be reduced to less than 0.
	I use this card, then attack my opponent. During the security check, I flip over a Digimon card with the effect, "[Security] At the end of the battle, play this card without paying its memory cost." What happens to this Security Digimon?	After the battle between the attacking Digimon and Security Digimon, the effect prevents the Digimon from being played, so it's placed in the trash.
	If this card's effect is activated on the opponent's turn, how long does the effect last?	When the effect of this card is activated on the opponent's turn, it lasts until the end of that turn.
BT8-098	Innocence Blizzard	
	I use this card, but my opponent has no Digimon without digivolution cards in play, so I can't specify any Digimon that can't attack or block. If my opponent later plays a Digimon without digivolution cards to their battle area, can I make that Digimon unable to attack or block?	No, you can't. You can only specify Digimon that can't attack or block at the time this card's effect is activated.
	If this card's effect is activated on the opponent's turn, how long does the effect last?	When the effect of this card is activated on the opponent's turn, it lasts until the end of that turn.
BT8-100	Disaster Blaster	
	Does this card's "If you have a Digimon in play with...2 or more colors in one of its digivolution cards" count a Digimon that has both a red card and a blue card in its digivolution cards?	No, it doesn't. The effect is looking for a Digimon with a digivolution card that has 2 or more colors.
	Does this card's "If you have a Digimon in play with...2 or more colors in one of its digivolution cards" count a Digimon with a card like [BT3-040 Shakkoumon]'s "This Digimon is also treated as blue" in its digivolution cards?	No, it doesn't. Effects that grant additional colors don't do anything as digivolution cards, so the card is only treated as a single color.
BT8-101	Plasma Shot	
	If I have 1 card with [Armor Form] in its traits in my trash, can I use this card's effect to give an opponent's Digimon -4000 DP, and then give it an additional -1000 DP with the second part of the effect?	Yes, that's correct.
BT8-102	Samādhī Śānti	

	Can I use this card's effect to prevent 1 of my opponent's suspended Digimon or Tamers from unsuspending until the end of their turn?	No. You can choose 1 of your opponent's suspended Digimon or Tamers with this card's effect, but if you didn't use this effect to suspend that card, the "can't unsuspend until the end of their next turn" part of the effect doesn't apply.
BT8-105	Dark Gaia Force	
	What does "Choose any number of your opponent's Digimon whose play costs add up to 15 or less" mean, exactly?	You can choose any number of your opponent's Digimon, as long as the play costs of the chosen Digimon add up to 15 or less. For example, you could choose 1 Digimon with a play cost of 3 and 1 Digimon with a play cost of 12, or 1 Digimon with a play cost of 2 and 2 Digimon with play costs of 6.
	Can I choose fewer cards than possible, even if the play costs of the chosen cards add up to less than 15?	Yes. As long as the total play costs of the chosen cards is less than 15, you can choose as many or as few cards as you like. However, note that you must choose a minimum of 1 Digimon with a play cost of 15 or less.
	My opponent uses effects to reduce play costs or play Digimon for free. Are Digimon played with these effects counted as having reduced play costs or play costs of 0 by this effect?	No. Regardless of how a Digimon was played, only the play cost printed on the card is counted for this card's effect.

BT8-110	Armor Texture!	
	I use this card to trash the top card of 1 of my Digimon with [Armor Form] in its traits. Can I then digivolve one of my other Digimon into a Digimon card in my hand with [Armor Form] in its traits?	Yes, you can. If you do, only the Digimon you chose to digivolve will unsuspend.
	I use this card to trash the top card of 1 of my Digimon with [Armor Form] in its traits. Can I then choose NOT to digivolve one of my other Digimon into a Digimon card in my hand with [Armor Form] in its traits?	Yes, you can. If you choose this option, however, no Digimon will be unsuspending with this effect.
	When using this card's effect to digivolve into a Digimon in my hand with [Armor Form] in its traits, can I ignore its digivolution requirements?	No. Digivolution requirements cannot be ignored unless an effect explicitly instructs you to ignore them.
BT8-111	Creepymon	

	<p>If this card's [When Digivolving] effect trashes 8 cards from the top of my deck, can I play 2 level 5 or lower purple Digimon cards from my trash without paying their memory costs?</p>	<p>No. Even if you trash more than 4 cards with the effect, you can only play 1 level 5 or lower purple Digimon card.</p>
	<p>If I have 20 cards in my trash, does this card's [When Attacking] effect trash the top 6 cards of my opponent's deck and give this Digimon +6000 DP?</p>	<p>Yes. The effect reads, "For every 10 cards in your trash," so if you have 20 cards in your trash, you would trash the top 6 cards of your opponent's deck and get +6000 DP.</p>
