

DIGIMON CARD GAME NEXT ADVENTURE[BT-07]		
BT7		
№	Q	A
BT7-001	Kapurimon	
	Do Tamers of any color make the effect of this card active?	Yes. No color is specified, so you can activate the effect of any Tamer, regardless of color.
BT7-003	Pusurimon	
	Which activates first: This card's inherited effect, or the effect that activates when you trash this card with <Digi-Burst>?	The <Digi-Burst> effect activates first.
BT7-005	Dorimon	
	When one of my effects digivolves a Digimon with this card in its digivolution cards, does this card's inherited effect activate?	No. When a Digimon digivolves, even if it happens due to an effect, it is not counted as an effect placing digivolution cards under that Digimon.
	If one of my effects places 2 or more cards at the same time under a Digimon that has this card's inherited effect, can I draw that many cards?	No. Even if multiple cards are added to the Digimon's digivolution cards, if they were added by a single effect, you only draw 1 card.
BT7-006	Kokomon	
	If there are Tamer cards among the cards revealed with this card's inherited effect, do I have to trash 1 of them?	Yes. You can choose whether or not to reveal cards from your deck, but if any Tamer cards are revealed among the cards, you must trash 1 of them.
BT7-011	BurningGreymon	
	When this Digimon digivolves onto a Tamer card, does the Tamer card's [Security] effect become an inherited effect?	No, it doesn't.
	Instead of a Tamer card, can I digivolve this card onto a level 3 Digimon that meets the digivolution requirements?	Yes, you can.
	After a Tamer card ends up in this Digimon's digivolution cards, is that card affected by effects that trash digivolution cards?	Yes, it is. However, if the effect specifies that it trashes Digimon cards, Digi-Egg cards, or any other type of card that isn't a Tamer card, it can't affect Tamer cards.
	If I digivolve this card on top of a Tamer card, do I still get the digivolution bonus?	Yes, you do. Even if you digivolve using a Tamer card, make sure to draw 1 card as the digivolution bonus.
	Can I attack the turn I digivolve this card on top of a Tamer card?	Yes. Digivolution doesn't count as "playing" a card, so you can attack that turn.
	I play a Tamer card, then digivolve it into this Digimon. Can I then attack with that Digimon during that same turn?	No. Since it's the first turn the Tamer was played, the limitation for attacking on the first turn a card is played still applies.
	If I've digivolved this card on top of a Tamer card and the Digimon is deleted, what happens to the Tamer card?	It's trashed.
BT7-013	MetalGreymon	
	If I play this card while I have no Tamers in play, and play a red Tamer from my hand with this card's effect, do I then also gain 2 memory from this effect since I now have a Tamer in play?	No. If you play this card with no Tamers in play, you only get to play 1 red Tamer card from your hand.
	If I delete 2 or more of my opponent's Digimon at the same time, does this card's inherited effect allow me to gain 1 memory for each Digimon deleted?	No. Even if multiple Digimon are deleted, if they were deleted by a single effect, you only gain 1 memory.
BT7-014	Aldamon	
	When a Digimon with this card in its digivolution cards performs a security check, if the checked card is a Digimon card or a Tamer card, does its [Security] effect activate?	Yes. All [Security] effects on non-Option cards activate normally.
BT7-015	AvengeKidmon	
	Is this card's play cost reduced by 1 for each Option card in ONLY my trash or my opponent's trash?	No, its play cost is reduced by the total number of Option cards in both you and your opponent's trashes.
	I use this card's [On Play] effect to return cards from both players' trashes to the bottom of their owners' decks. Who decides which order the cards are placed in?	The owners of the cards get to decide the order the cards are placed in when they return to the bottom of their decks.
BT7-016	EmperorGreymon	

	I attack with this Digimon, and it is blocked by an opponent's Digimon at the reaction timing. My opponent has another "when an opponent's Digimon attacks" effect that is still pending activation. Does that effect activate before this card's [Your Turn] effect?	This card's effect activates first. The [Your Turn] effect is triggered by your opponent activating <Blocker> to block this Digimon's attack. Because <Blocker> is a reaction timing effect, that means the [Your Turn] effect is triggered after reaction timing effects have been triggered. According to the rules, effects that were triggered later have activation priority, so the [Your Turn] effect activates first.
BT7-017	Chaosdramon	
	Can I place 1 red or black level 5 card with [Cyborg] in its traits from my hand or trash on top of this Digimon's digivolution cards with this card's [When Digivolving] effect even if my opponent has no Digimon with 6000 DP or less in play?	Yes, you can.
BT7-018	Gomamon	
	A Digimon with this card in its digivolution cards is targeted with <De-Digivolve> by my opponent, resulting in this card now being the Digimon's top card. Do I draw 2 cards with this card's [On Play] effect?	No. Having this card become a Digimon as a result of <De-Digivolve> doesn't count as playing it, so you can't draw any cards.
BT7-021	Kumamon	
	When this Digimon digivolves onto a Tamer card, does the Tamer card's [Security] effect become an inherited effect?	No, it doesn't.
	Instead of a Tamer card, can I digivolve this card onto a level 3 Digimon that meets the digivolution requirements?	Yes, you can.
	After a Tamer card ends up in this Digimon's digivolution cards, is that card affected by effects that trash digivolution cards?	Yes, it is. However, if the effect specifies Digimon cards, Digi-Egg cards, or any other type of card that isn't a Tamer card, it can't be targeted by that effect.
	If I digivolve this card on top of a Tamer card, do I still get the digivolution bonus?	Yes, you do. Even if you digivolve using a Tamer card, make sure to draw 1 card as the digivolution bonus.
	Can I attack the turn I digivolve this card on top of a Tamer card?	Yes. Digivolution doesn't count as "playing" a card, so you can attack that turn.
	I play a Tamer card, then digivolve it into this Digimon. Can I then attack with that Digimon during that same turn?	No. Since it's the first turn the Tamer was played, the limitation for attacking on the first turn a card is played still applies.
	If I've digivolved this card on top of a Tamer card and the Digimon is deleted, what happens to the Tamer card?	It's trashed.
BT7-022	KendoGarurumon	
	When this Digimon digivolves onto a Tamer card, does the Tamer card's [Security] effect become an inherited effect?	No, it doesn't.
	Instead of a Tamer card, can I digivolve this card onto a level 3 Digimon that meets the digivolution requirements?	Yes, you can.
	After a Tamer card ends up in this Digimon's digivolution cards, is that card affected by effects that trash digivolution cards?	Yes, it is. However, if the effect specifies Digimon cards, Digi-Egg cards, or any other type of card that isn't a Tamer card, it can't be targeted by that effect.
	If I digivolve this card on top of a Tamer card, do I still get the digivolution bonus?	Yes, you do. Even if you digivolve using a Tamer card, make sure to draw 1 card as the digivolution bonus.
	Can I attack the turn I digivolve this card on top of a Tamer card?	Yes. Digivolution doesn't count as "playing" a card, so you can attack that turn.
	I play a Tamer card, then digivolve it into this Digimon. Can I then attack with that Digimon during that same turn?	No. Since it's the first turn the Tamer was played, the limitation for attacking on the first turn a card is played still applies.
	If I've digivolved this card on top of a Tamer card and the Digimon is deleted, what happens to the Tamer card?	It's trashed.
BT7-023	Korikakumon	
	When this Digimon digivolves onto a Tamer card, does the Tamer card's [Security] effect become an inherited effect?	No, it doesn't.
	Instead of a Tamer card, can I digivolve this card onto a level 3 Digimon that meets the digivolution requirements?	Yes, you can.
	After a Tamer card ends up in this Digimon's digivolution cards, is that card affected by effects that trash digivolution cards?	Yes, it is. However, if the effect specifies Digimon cards, Digi-Egg cards, or any other type of card that isn't a Tamer card, it can't be targeted by that effect.

	If I digivolve this card on top of a Tamer card, do I still get the digivolution bonus?	Yes, you do. Even if you digivolve using a Tamer card, make sure to draw 1 card as the digivolution bonus.
	Can I attack the turn I digivolve this card on top of a Tamer card?	Yes. Digivolution doesn't count as "playing" a card, so you can attack that turn.
	I play a Tamer card, then digivolve it into this Digimon. Can I then attack with that Digimon during that same turn?	No. Since it's the first turn the Tamer was played, the limitation for attacking on the first turn a card is played still applies.
	If I've digivolved this card on top of a Tamer card and the Digimon is deleted, what happens to the Tamer card?	It's trashed.
	When this card's [When Digivolving] effect prevents a Digimon from attacking or blocking, if that Digimon gains a digivolution card afterwards, can it attack or block?	No. Once a Digimon is targeted by this card's [When Digivolving] effect, it becomes unable to attack or block until the end of your opponent's turn, even if it gains a digivolution card.
BT7-026	WereGarurumon	
	If I play this card while I have no Tamers in play, and play a blue Tamer from my hand with this card's effect, do I then also gain 2 memory from this effect since I now have a Tamer in play?	No. If you play this card with no Tamers in play, you only get to play 1 blue Tamer card from your hand.
BT7-027	Whamon	
	This card's [On Play] effect places a Digimon card from my hand under 1 of my Digimon. Can I place it under this Digimon?	Yes, you can.
	This card's [On Play] effect plays a level 3 Digimon card from the digivolution cards of a suspended Digimon. Does the level 3 Digimon enter play suspended?	No. It enters play as a new Digimon, unsuspending. Additionally, it does not carry over any effects on the source Digimon.
BT7-028	KingWhamon	
	One of my Digimon with digivolution cards is targeted by my opponent's <De-Digivolve>, resulting in it becoming one of the Digimon in its digivolution cards. When this happens, can I return 1 of my opponent's level 4 or lower Digimon to its owner's hand with this card's [Your Turn] effect?	No. Having a digivolution card become a Digimon as a result of <De-Digivolve> does not count as playing that card, so this card's [Your Turn] effect does not trigger.
BT7-029	MagnaGarurumon	
	This card has an effect that activates at both [When Digivolving] and [When Attacking] timings. What does this mean, exactly?	It means the effect can be activated both [When Digivolving] and [When Attacking]. You can activate it as a [When Digivolving] effect when you digivolve this Digimon, then activate it again on following turns as a [When Attacking] effect by attacking with this Digimon.
	This card has a [When Digivolving][When Attacking][Once Per Turn] effect, but can I activate it twice in the same turn by both digivolving and attacking?	No. No matter which timing the effect is triggered at, it is still the same effect and can only be activated [Once Per Turn]. If the effect has been triggered at [When Digivolving] and activated, it can not be activated again on the same turn, even if it's triggered [When Attacking].
BT7-031	Herissmon	
	I trash this card from a Digimon's digivolution cards to activate <Digi-Burst>. Do I return this card to its owner's hand before or after the <Digi-Burst> effect activates?	Return this card to its owner's hand after <Digi-Burst> activates.
BT7-037	Boutmon	
	I have a suspended Digimon with <Blocker> and this card in its digivolution cards, and my opponent attacks me with a Digimon. I unsuspend the Digimon with this card's inherited effect. Can I now block the opponent's Digimon?	Yes, you can.
BT7-039	Stefilmon	
	I use <Digi-Burst> to trash this card from a Digimon's digivolution cards. Which activates first: This card's inherited effect, or the effect that activates when you trash this card with <Digi-Burst>?	The <Digi-Burst> effect activates first.
BT7-040	Rasenmon	
	When digivolving into this card from my hand, I activate an effect on another card that reduces digivolution costs. What happens to this card's digivolution cost?	The digivolution cost is equal to the number of cards in your security stack minus the amount reduced by the effect. If you have 4 security cards and activate an effect that reduces digivolution costs by 2, the final digivolution cost will be 2. (4 minus 2.)

	This card's <Digi-Burst> reads "up to 4." Can I activate the effect if I have 3 or fewer digivolution cards?	Yes, you can. This card's <Digi-Burst up to 4> allows you to choose any number of digivolution cards to trash, from 1 to 4. If you have 3 or fewer digivolution cards, you can activate the effect as long as you can trash 1 or more of them.
	I trash 2 digivolution cards to activate this card's <Digi-Burst>. Can I have 2 of my opponent's Digimon both get -3000 DP?	No, this effect can only target 1 of your opponent's Digimon.
BT7-041	Kazuchimon	
	I activate this card's [When Digivolving] effect when I have 2 or fewer security cards to go up to 3 security cards with <Recovery>. Do I now gain 2 memory for being at 3 or more security cards?	No. If you digivolve into this card while at 2 or fewer security cards, you only go up to 3 security cards with <Recovery>.
BT7-046	Beetlemon	
	When this Digimon digivolves onto a Tamer card, does the Tamer card's [Security] effect become an inherited effect?	No, it doesn't.
	Instead of a Tamer card, can I digivolve this card onto a level 3 Digimon that meets the digivolution requirements?	Yes, you can.
	After a Tamer card ends up in this Digimon's digivolution cards, is that card affected by effects that trash digivolution cards?	Yes, it is. However, if the effect specifies Digimon cards, Digi-Egg cards, or any other type of card that isn't a Tamer card, it can't be targeted by that effect.
	If I digivolve this card on top of a Tamer card, do I still get the digivolution bonus?	Yes, you do. Even if you digivolve using a Tamer card, make sure to draw 1 card as the digivolution bonus.
	Can I attack the turn I digivolve this card on top of a Tamer card?	Yes. Digivolution doesn't count as "playing" a card, so you can attack that turn.
	I play a Tamer card, then digivolve it into this Digimon. Can I then attack with that Digimon during that same turn?	No. Since it's the first turn the Tamer was played, the limitation for attacking on the first turn a card is played still applies.
	If I've digivolved this card on top of a Tamer card and the Digimon is deleted, what happens to the Tamer card?	It's trashed.
	I reveal 5 cards with this card's [When Digivolving] effect. If the cards revealed only include either a card with [Hybrid] in its traits or [J.P. Shibayama], can I still add a card to my hand?	Yes. Even if you revealed only a card with [Hybrid] in its traits or [J.P. Shibayama], you still add that card to your hand.
BT7-047	MetalKabuterimon	
	When this Digimon digivolves onto a Tamer card, does the Tamer card's [Security] effect become an inherited effect?	No, it doesn't.
	Instead of a Tamer card, can I digivolve this card onto a level 3 Digimon that meets the digivolution requirements?	Yes, you can.
	After a Tamer card ends up in this Digimon's digivolution cards, is that card affected by effects that trash digivolution cards?	Yes, it is. However, if the effect specifies Digimon cards, Digi-Egg cards, or any other type of card that isn't a Tamer card, it can't be targeted by that effect.
	If I digivolve this card on top of a Tamer card, do I still get the digivolution bonus?	Yes, you do. Even if you digivolve using a Tamer card, make sure to draw 1 card as the digivolution bonus.
	Can I attack the turn I digivolve this card on top of a Tamer card?	Yes. Digivolution doesn't count as "playing" a card, so you can attack that turn.
	I play a Tamer card, then digivolve it into this Digimon. Can I then attack with that Digimon during that same turn?	No. Since it's the first turn the Tamer was played, the limitation for attacking on the first turn a card is played still applies.
	If I've digivolved this card on top of a Tamer card and the Digimon is deleted, what happens to the Tamer card?	It's trashed.
BT7-049	MameTyramon	
	I digivolve into a green level 6 Digimon with this card's [When Attacking] effect. Can I activate that Digimon's [When Attacking] effects?	No. It is too late to trigger those [When Attacking] effects because it did not have them when the attack was declared.
	When attacking, do I have to reveal 3 cards from my deck with this card's [When Attacking] effect?	Yes, the effect is mandatory. You reveal as many cards as you can, up to 3.
	If a green level 6 Digimon card is among the cards revealed with this card's [When Attacking] effect, do I have to digivolve into it?	No. The effect reads, "You may digivolve," so you can choose not to.

	If 2 or more green level 6 Digimon cards are among the cards revealed with this card's [When Attacking] effect, can I choose either card to digivolve into?	Yes, you can digivolve into the Digimon of your choosing.
	When digivolving with this card's [When Attacking] effect, do I draw a card as a digivolution bonus?	Yes, you do.
BT7-051	RhinoKabuterimon	
	I have a card with [Hybrid] or [Insectoid] in its traits in this Digimon's digivolution cards. Does this card's [When Attacking] effect force me to digivolve this Digimon into a Digimon card with [Insectoid] or [Ten Warriors] in its traits in my hand?	No. The effect reads, "This Digimon can digivolve," so you can choose not to.
	When digivolving with this card's [When Attacking] effect, paying the digivolution cost moves the memory gauge to 1 or more on my opponent's side. What happens to the attack?	The attack continues. The turn doesn't switch over just yet. If the memory gauge is still at 1 or more on your opponent's side after the attack ends and any effects triggered by it finish activating, only then does the turn switch over.
	I attack with [EX1-035 Kabuterimon] and digivolve into this card with its [When Attacking] effect. Can I then digivolve again on the same attack with this card's [When Attacking] effect?	No, it is too late to trigger this card's [When Attacking] effect, since the Digimon didn't have it when the attack was declared.
	When digivolving into a Digimon card in my hand with [Insectoid] or [Ten Warriors] in its traits with this card's [When Attacking] effect, can I ignore that card's digivolution requirements?	No, you can't ignore its digivolution requirements.
BT7-055	Ebonwumon	
	My opponent unsuspending 2 or more of their Digimon. Does this card's [Opponent's Turn] effect allow my opponent to unsuspend all of their Digimon by trashing 1 card in their hand?	No. Your opponent must trash 1 card in their hand for each Digimon they unsuspend.
	If an effect would cause an opponent's Digimon to unsuspend, does this card's [Opponent's Turn] effect force my opponent to trash a card in their hand?	No. The [Opponent's Turn] effect cannot force the opponent to trash cards in their hand. However, no matter how the Digimon would become unsuspending, whether from an effect or your opponent's unsuspending phase, the Digimon cannot unsuspend unless the opponent trashes a card in their hand.
	My opponent has this Digimon in play. If I have 3 suspended Digimon in play, do I need to have 3 or more cards in hand during my unsuspending phase in order to unsuspend my Digimon?	No, you can choose which of your Digimon to unsuspend, and trash a card in your hand for each one. Digimon will not unsuspend unless you choose to trash a card in your hand, so even if you have fewer cards in hand than suspended Digimon in play, you can still choose to unsuspend specific Digimon.
	Does this card's [Opponent's Turn] effect require my opponent to trash cards in their hand to also unsuspend their Tamer cards?	No. This effect only affects Digimon. Your opponent can unsuspend their Tamers normally, without trashing cards in their hand.
	I have two of these Digimon in play. Does my opponent have to trash 2 cards in their hand for each Digimon they want to unsuspend?	Yes. Your opponent's Digimon now have two copies of "[Your Turn] You must trash 1 card in your hand to unsuspend this Digimon" on them, which means they have to trash 2 cards in their hand to unsuspend 1 of their Digimon.
BT7-056	Dorumon	
	I reveal 3 cards with this card's [On Play] effect. If the cards revealed only include either a card with [X-Antibody] in its traits or [Kota Domoto], can I still add a card to my hand?	Yes. Even if you revealed only a card with [X-Antibody] in its traits or [Kota Domoto], you still add that card to your hand.
	When one of my effects digivolves a Digimon with this card in its digivolution cards, does this card's inherited effect activate?	No. When a Digimon digivolves, even if it happens due to an effect, it is not counted as an effect placing digivolution cards under that Digimon.
	If one of my effects places 2 or more cards at the same time under a Digimon that has this card's inherited effect, do I gain that much memory?	No. Even if multiple cards are added to the Digimon's digivolution cards, you only gain 1 memory.
	When this card is placed in one of my Digimon's digivolution cards, does this card's inherited effect activate?	Yes, it does.
BT7-058	SkullKnightmon	
	Can this card's [When Attacking] effect place one of my [DeadlyAxemon] with no digivolution cards at the bottom of this Digimon's digivolution cards?	Yes, you can choose a [DeadlyAxemon] with no digivolution cards with this effect.

	After a Tamer card ends up in this Digimon's digivolution cards, is that card affected by effects that trash digivolution cards?	Yes, it is. However, if the effect specifies Digimon cards, Digi-Egg cards, or any other type of card that isn't a Tamer card, it can't be targeted by that effect.
	If I digivolve this card on top of a Tamer card, do I still get the digivolution bonus?	Yes, you do. Even if you digivolve using a Tamer card, make sure to draw 1 card as the digivolution bonus.
	Can I attack the turn I digivolve this card on top of a Tamer card?	Yes. Digivolution doesn't count as "playing" a card, so you can attack that turn.
	I play a Tamer card, then digivolve it into this Digimon. Can I then attack with that Digimon during that same turn?	No. Since it's the first turn the Tamer was played, the limitation for attacking on the first turn a card is played still applies.
	If I've digivolved this card on top of a Tamer card and the Digimon is deleted, what happens to the Tamer card?	It's trashed.
BT7-061	Gigasmon

	If I've digivolved this card on top of a Tamer card and the Digimon is deleted, what happens to the Tamer card?	It's trashed.
BT7-063	DarkKnightmon	
	Can this card's [On Play] effect place cards in this Digimon's digivolution cards if I don't have both a [SkullKnightmon] and [DeadlyAxemon] in either my hand or trash?	Yes. You don't have to place both a [SkullKnightmon] and a [DeadlyAxemon]. You can also place either of them on their own from either your hand or trash in this Digimon's digivolution cards.
	Can this card's [On Play] effect place a [SkullKnightmon] in my hand and a [DeadlyAxemon] in my trash in this Digimon's digivolution cards?	Yes. You can mix and match [SkullKnightmon] and [DeadlyAxemon] from both your hand and trash to place in this Digimon's digivolution cards.
	If I have both [SkullKnightmon] and [DeadlyAxemon] in this Digimon's digivolution cards, does this card's [All Turns] effect require me to play both?	No. The effect reads, "you may," so you can choose whether to play them. Choosing to play one or the other is up to you.
	When does the [All Turns] effect of this Digimon trigger?	The [All Turns] effect triggers and activates immediately prior to the Digimon being deleted. In this way, the [All Turns] effect has the same timing as effects that say "when this Digimon would be deleted"
BT7-070	Wendigomon	
	Can I choose not to activate this card's [When Digivolving] effect when digivolving?	Yes. The effect reads, "You may," so you can choose not to activate it. However, after revealing a card from your deck, you must perform the rest of the effect to the best of your ability.
	If Tamer cards are among the 5 cards revealed by this card's [When Digivolving] effect, am I required to trash them?	Yes. Once you choose to reveal cards, you must trash all Tamer cards you reveal.
BT7-071	Lowemon	
	When this Digimon digivolves onto a Tamer card, does the Tamer card's [Security] effect become an inherited effect?	No, it doesn't.
	Instead of a Tamer card, can I digivolve this card onto a level 3 Digimon that meets the digivolution requirements?	Yes, you can.

	After a Tamer card ends up in this Digimon's digivolution cards, is that card affected by effects that trash digivolution cards?	Yes, it is. However, if the effect specifies Digimon cards, Digi-Egg cards, or any other type of card that isn't a Tamer card, it can't be targeted by that effect.
	If I digivolve this card on top of a Tamer card, do I still get the digivolution bonus?	Yes, you do. Even if you digivolve using a Tamer card, make sure to draw 1 card as the digivolution bonus.
	Can I attack the turn I digivolve this card on top of a Tamer card?	Yes. Digivolution doesn't count as "playing" a card, so you can attack that turn.
	I play a Tamer card, then digivolve it into this Digimon. Can I then attack with that Digimon during that same turn?	No. Since it's the first turn the Tamer was played, the limitation for attacking on the first turn a card is played still applies.
	If I've digivolved this card on top of a Tamer card and the Digimon is deleted, what happens to the Tamer card?	It's trashed.

	When this Digimon digivolves onto a Tamer card, does the Tamer card's [Security] effect become an inherited effect?	No, it doesn't.
	Instead of a Tamer card, can I digivolve this card onto a level 3 Digimon that meets the digivolution requirements?	Yes, you can.
	After a Tamer card ends up in this Digimon's digivolution cards, is that card affected by effects that trash digivolution cards?	Yes, it is. However, if the effect specifies Digimon cards, Digi-Egg cards, or any other type of card that isn't a Tamer card, it can't be targeted by that effect.
	If I digivolve this card on top of a Tamer card, do I still get the digivolution bonus?	Yes, you do. Even if you digivolve using a Tamer card, make sure to draw 1 card as the digivolution bonus.
	Can I attack the turn I digivolve this card on top of a Tamer card?	Yes. Digivolution doesn't count as "playing" a card, so you can attack that turn.
	I play a Tamer card, then digivolve it into this Digimon. Can I then attack with that Digimon during that same turn?	No. Since it's the first turn the Tamer was played, the limitation for attacking on the first turn a card is played still applies.
	If I've digivolved this card on top of a Tamer card and the Digimon is deleted, what happens to the Tamer card?	It's trashed.
BT7-075	Rhihimon

BT7-079	Cherubimon	
	I do not play a purple Tamer card from my trash with this card's [When Digivolving] effect. Does the "for each Tamer you have in play, delete 1 of your opponent's level 4 or lower Digimon" part of the effect activate?	Yes. Even if you don't play a Tamer from your trash, everything following "Then," still activates.
BT7-080	Neemon

BT7-081	Bokomon	
	I reveal 5 cards with this card's [On Play] effect. If the cards revealed only include either a card with [Hybrid] or [Ten Warriors] in its traits or a Tamer card, can I still add a card to my hand? BT7-082	Sistermon Blanc (Awakened)	
	Can I place a [Sistermon Blanc (Awakened)] from my hand or trash at the bottom of this Digimon's digivolution cards with this card's [On Play] effect?	No, you can't. This effect can only place [Sistermon Blanc].

	Can this card's [On Deletion] effect return [BaoHuckmon], [SaviorHuckmon], or [Sistermon Ciel (Awakened)] from my trash to my hand?	Yes. Those cards have [Huckmon] and/or [Sistermon] in their names, so you can add one of them to your hand.

	Can I place a [Sistermon Ciel (Awakened)] from my hand or trash at the bottom of this Digimon's digivolution cards with this card's [On Play] effect?	No, you can't. This effect can only place [Sistermon Ciel].

	I use this card, then, during a security check, I flip one of my opponent's Security Digimon, whose DP is reduced to 0 by this card's [Main] effect. Is the opponent's Security Digimon deleted without a battle taking place?	No. Even if a Security Digimon's DP is reduced to 0, they still battle the Digimon performing the security check.

	I use this card to have an opponent's Digimon get -3000 DP, then play a [Rasenmon]. Can I have that [Rasenmon] gain <Security Attack +1>?	No. You didn't have a [Rasenmon] in play when you used this card, so it's too late to give it <Security Attack +1>.
BT7-101	Thunder Laser	
	Can I use this card when I don't have a Digimon with [Hybrid] or [Ten Warriors] in play? If I can, what does the effect do?	You can use this card, but no effect will occur. This will still trigger any effects that trigger when you use Option cards, however.
BT7-105	Pride Memory Boost!	
	I use this card's effect, but there are either no black Digimon cards with play costs of 4 or less among the revealed cards, or there is one, but I choose not to play it. Do I discard this card instead of placing it in my battle area?	No. Whether or not you play a Digimon with this card's effect is irrelevant. You still place it in your battle area.

BT7-108	Schwarz Lehrsatz	
	Does "For each Digimon with [Hybrid] in its traits and each Tamer you have in play, delete 1 of your opponent's level 5 or lower Digimon" mean that I can delete 1 of my opponent's Digimon for each pair of [Hybrid] Digimon and Tamer I have in play?	No. The number of Digimon you can delete is equal to the total number of Digimon with [Hybrid] in their traits and Tamers you have in play.
