

DIGIMON CARD GAME RESURGENCE BOOSTER [RB01]

No.	Name	Q	A
RB1-003	Bosamon		
		I attacked with a Digimon that has this card in its digivolution cards when my opponent has just 1 unsuspended Digimon with <Blocker>. If my opponent no longer has any unsuspended Digimon after my opponent's Digimon blocks and suspends, does the battle with my opponent's Digimon proceed with the +1000 DP from this card's inherited effect? 1	Yes, the battle proceeds with +1000 DP.
RB1-004	Agumon		
		What does this card's "This card's number is treated as [P-009], and you can only include up to 4 copies in your deck together with [P-009]" mean, exactly? 1	This card is treated as a card with the same card number as [P-009 Agumon]. This is a special rule, not an effect. Therefore, this text applies when the card is in your hand, breeding area, or any other area. In addition, you can only include up to 4 copies of this card and/or [P-009 Agumon] when building a deck.
RB1-005	Gammamon		
		Is the [Gammamon] text in this card's inherited effect itself considered to fulfill "While this Digimon has [Gammamon] in its text" in this card's inherited effect, and then the effect activates? 1	No, it doesn't. You can only reference the top card among stacked cards for "XX in its text." Therefore, this card will not be the top card when it is a digivolution card, and you can't reference its own text.
		If the cards I reveal from my deck for this card's [On Play] effect include both a [Hiro Amanokawa] with [Gammamon] in its text and a non-[Hiro Amanokawa] card with [Gammamon] in its text, can I choose to only add one of them to my hand, and place the remaining cards at the bottom of my deck? 2	No. If you have cards that are targets of this effect, you must add as many cards to your hand as possible. However, because one of the cards revealed and added to your hand is a [Hiro Amanokawa] with [Gammamon] in its text, that card fulfills "card with [Gammamon] in its text," so you may just add that [Hiro Amanokawa] card to your hand and return the non-[Hiro Amanokawa] card to the bottom of your deck without adding it to your hand.
RB1-006	Gammamon		
		What does this card's "This card's number is treated as [P-058], and you can only include up to 4 copies in your deck together with [P-058]" mean, exactly? 1	This card is treated as a card with the same card number as [P-058 Gammamon]. This is a special rule, not an effect. Therefore, this text applies when the card is in your hand, breeding area, or any other area. In addition, you can only include up to 4 copies of this card and/or [P-058 Gammamon] when building a deck.
RB1-007	Greymon		
		What does this card's "This card's number is treated as [P-010], and you can only include up to 4 copies in your deck together with [P-010]" mean, exactly? 1	This card is treated as a card with the same card number as [P-010 Greymon]. This is a special rule, not an effect. Therefore, this text applies when the card is in your hand, breeding area, or any other area. In addition, you can only include up to 4 copies of this card and/or [P-010 Greymon] when building a deck.

RB1-009	Canoweissmon		
		<p>Does this card's "This card in your hand can digivolve onto one of your [Gammamon] that has a digivolution card with [Gammamon] in its name for a digivolution cost of 3, ignoring this card's digivolution requirements" mean that it can also digivolve from cards that have [Gammamon] in their names such as [BetelGammamon], [KausGammamon], [WezenGammamon], or [GulusGammamon]?</p> <p>1</p>	<p>No, it can't. This effect can only be used to digivolve from a Digimon whose card name is [Gammamon] and also has a digivolution card with [Gammamon] in its name. Note that digivolutions from cards with non-[Gammamon] card names are possible using digivolution requirements or this card's special digivolution requirements.</p>
		<p>When digivolving into this card, do the [When Digivolving] effects on digivolution cards with [Gammamon] in their names activate?</p> <p>2</p>	<p>Yes, they activate. This card's "This Digimon gains all effects of cards with [Gammamon] in their names in this Digimon's digivolution cards" effect is an [All Turns] effect, so it will activate as soon as the digivolution is confirmed. Therefore, [When Digivolving] effects are gained and will trigger.</p>
		<p>I digivolve a [BT8-013 BetelGammamon] into this card. Can I activate [BT8-013 BetelGammamon]'s [When Digivolving] <Blitz> effect through this card's [All Turns] effect and attack?</p> <p>3</p>	<p>Yes, if the memory gauge is now at 1 or greater on your opponent's side, you can activate <Blitz> .</p>
		<p>Can I digivolve one of my [Gammamon] with a digivolution card with [Gammamon] in its name in the battle area into this card in the hand when an effect to digivolve one of my Digimon is activated?</p> <p>4</p>	<p>Yes, you can.</p>
RB1-010	Siriusmon		
		<p>I used this card's [When Digivolving] effect to place a Digimon card with an inherited effect that increases DP in this card's digivolution cards. In such cases, can I use "delete 1 of your opponent's Digimon with DP less than or equal to this Digimon's DP" to delete 1 of my opponent's Digimon with DP less than or equal to the DP after it was increased?</p> <p>1</p>	<p>If that inherited effect is an effect such as a [Your Turn] [All Turns] effect that increases DP upon activation after being placed in digivolution cards, you can delete 1 of your opponent's Digimon with DP less than or equal to the DP after it was increased.</p>
		<p>I used this card's [When Digivolving] effect to delete 1 of my opponent's Digimon. At this time, can I choose to not unsuspend this Digimon for the [Your Turn] effect, and then when I later delete another opponent's Digimon in battle, etc., can I activate the effect and unsuspend this Digimon?</p> <p>2</p>	<p>Yes, you can. This card's [Your Turn] effect reads "you may unsuspend." Therefore, if you don't unsuspend this Digimon, it means you haven't yet used this [Once Per Turn] effect, and you can activate it when you delete an opponent's Digimon upon a different timing.</p>
RB1-011	Jellymon		
		<p>If the cards I reveal from my deck for this card's [On Play] effect include both a [Kiyoshiro Higashimitarai] with [Jellymon] in its text and a non-[Kiyoshiro Higashimitarai] card with [Jellymon] in its text, can I choose to only add one of them to my hand, and place the remaining cards at the bottom of my deck?</p> <p>1</p>	<p>No. If you have cards that are targets of this effect, you must add as many cards to your hand as possible. However, because one of the cards revealed and added to your hand is a [Kiyoshiro Higashimitarai] card with [Jellymon] in its text, that card fulfills "card with [Jellymon] in its text," so you may just add that [Kiyoshiro Higashimitarai] card to your hand and return the non-[Kiyoshiro Higashimitarai] card to the bottom of your deck without adding it to your hand.</p>

RB1-014	Thetismon		
		When I trash multiple blue cards in my hand, can I use this card's [When Digivolving] effect to choose separate opponent's Digimon or Tamers and trash the cards under each one? 1	Yes, you can.
		What kind of state does "1 of your opponent's Digimon or Tamers without cards under it" in this card's [When Digivolving] effect refer to? 2	It refers to states where a Digimon doesn't have any digivolution cards and a Tamer doesn't have any cards placed under it.
RB1-015	Fumamon		
		When digivolving into this card, do the [When Digivolving] effects on digivolution cards with [Gammamon] in their names activate? 1	Yes, they activate. This card's "This Digimon gains all effects of cards with [Gammamon] in their names in this Digimon's digivolution cards" effect is an [All Turns] effect, so it will activate as soon as the digivolution is confirmed. Therefore, [When Evolving] effects are gained and will trigger.
		I digivolve a [BT8-013 BetelGammamon] into this card. Can I activate [BT8-013 BetelGammamon]'s [When Digivolving] <Blitz> effect through this card's [All Turns] effect and attack? 2	Yes, if the memory gauge is now at 1 or greater on your opponent's side, you can activate <Blitz> .
RB1-016	Amphimon		
		When I trash multiple blue cards in my hand, can I use this card's [When Digivolving] [When Attacking] effect to choose separate opponent's Digimon or Tamers and trash the cards under each one? 1	Yes, you can.
		Can I use "choose 1 card under an opponent's Digimon or Tamer and trash it" in this card's [When Digivolving][When Attacking] effect to choose any card from among the cards under the target opponent's Digimon or Tamer and trash it? Or can I only trash the bottom card? 2	The player that activated this effect can choose any card from among the cards under that card and trash it.
RB1-019	ShinMonzaemon		
		When this card's [When Digivolving] effect is used to place more than one of the opponent's level 3 Digimon on top of their security stack, which player decides the order the cards are placed in? 1	The player that activated this card's effect chooses.
RB1-020	Angoramon		
		If the cards I reveal for this card's [On Play] effect include 1 [Ruli Tsukiyono] with [Angoramon] in its text and 1 non-[Ruli Tsukiyono] card with [Angoramon] in its text, can I choose to only add one of them to my hand, and place the remaining 2 cards at the bottom of my deck? 1	No. If you have cards that are targets of this effect, you must add as many cards to your hand as possible. However, because one of the cards revealed and added to your hand is a [Ruli Tsukiyono] card with [Angoramon] in its text, that card fulfills "card with [Angoramon] in its text," so you may just add that [Ruli Tsukiyono] card to your hand and return the non-[Ruli Tsukiyono] card to the bottom of your deck without adding it to your hand.

RB1-023	Ghilliedhumon		
		When digivolving into this card, do the [When Digivolving] effects on digivolution cards with [Gammamon] in their names activate? 1	Yes, they activate. This card's "This Digimon gains all effects of cards with [Gammamon] in their names in this Digimon's digivolution cards" effect is an [All Turns] effect, so it will activate as soon as the digivolution is confirmed. Therefore, [When Evolving] effects are gained and will trigger.
		I digivolve a [BT8-013 BetelGammamon] into this card. Can I activate [BT8-013 BetelGammamon]'s [When Digivolving] <Blitz> effect through this card's [All Turns] effect and attack? 2	Yes, if the memory gauge is now at 1 or greater on your opponent's side, you can activate <Blitz> .
RB1-025	Diarrabbitmon		
		When I have multiple copies of this Digimon, can I use this card's [End of Your Turn] effect to attack using each in order? 1	No, you can't. At the end of your turn, all of these cards' [End of Your Turn] effects will trigger at the same time, but after you choose the activation order, declare the attack for the 1st Digimon, and effects such as [When Attacking] effects and "when one of your Digimon attacks" effects have finished activating, then the timing will occur for the activation of the [End of Your Turn] effects on the 2nd and other copies of this card that were pending activation. However, since the 1st Digimon is already attacking, you can't declare another attack and the effect activation will fail. As a result, only the copy that activated first will attack.
		I used my [RB1-034 Ruli Tsukiyono]'s [End of Your Turn] effect to unsuspend this card while it was suspended. In such cases, can I use this card's [End of Your Turn] effect to attack? 2	Yes, you can. At the end of your turn, this card and [RB1-034 Ruli Tsukiyono]'s effects trigger at the same time, so you can attack if you first activate [RB1-034 Ruli Tsukiyono]'s effect and then unsuspend this card.
RB1-027	HoverEspimon		
		Which player chooses whether to return the card revealed from my opponent's security stack by this card's [On Play] [When Digivolving] effect to the top or bottom of the security stack? 1	The player that activated this card's effect chooses.
RB1-028	BlackGatomon Uver.		
		Which player chooses the Digimon card to return from my opponent's trash to the bottom of the deck by this card's [On Play] effect? 1	The player that activated this card's effect chooses.
RB1-030	Regulusmon		
		When digivolving into this card, do the [When Digivolving] effects on digivolution cards with [Gammamon] in their names activate? 1	Yes, they activate. This card's "This Digimon gains all effects of cards with [Gammamon] in their names in this Digimon's digivolution cards" effect is an [All Turns] effect, so it will activate as soon as the digivolution is confirmed. Therefore, [When Evolving] effects are gained and will trigger.

		I digivolve a [BT8-013 BetelGammamon] into this card. Can I activate [BT8-013 BetelGammamon]'s [When Digivolving] <Blitz> effect through this card's [All Turns] effect and attack?	Yes, if the memory gauge is now at 1 or greater on your opponent's side, you can activate <Blitz> .
RB1-031	Arcturusmon		
		Can I delete 1 of my Digimon whose level is less than or equal to the number of cards in this Digimon's digivolution cards for this card's [When Digivolving] effect?	Yes, you can.
RB1-036	Proximamon		
		I used this card's [End of Your Turn] effect to place a Digimon card with an inherited effect that increases DP in this Digimon's digivolution cards. In such cases, can I use "delete 1 of your opponent's Digimon with DP less than or equal to this Digimon's DP" to delete 1 of my opponent's Digimon with DP less than or equal to the DP after it was increased?	If that inherited effect is an effect such as a [Your Turn] [All Turns] effect that increases DP upon activation after being placed in digivolution cards, you can delete 1 of your opponent's Digimon with DP less than or equal to the DP after it was increased.
RB1-034	Ruli Tsukiyono		
		I used this card's [End of Your Turn] effect to unsuspend my [RB1-025 Diarabbitmon] while it was suspended. In such cases, can I use [RB1-025 Diarabbitmon]'s [End of Your Turn] effect to attack?	Yes, you can. At the end of your turn, this card and [RB1-025 Diarabbitmon]'s effects trigger at the same time, so you can attack if you first activate this card's effect and then unsuspend [RB1-025 Diarabbitmon].
RB1-035	Hokuto Amanokawa		
		Can I suspend this Tamer when my opponent plays a Lv.- Digimon?	Yes, you can. However, Lv.- Digimon don't have a level, so the "gain 1 memory if that Digimon is level 4 or higher, and <Draw 1> if it is level 3" effect doesn't activate.
		What happens if I suspend this Tamer when my opponent plays both a level 3 and a level 4 or higher Digimon at the same time?	Both of the conditions are fulfilled, so you gain both 1 memory and <Draw 1>.
		If I suspend this Tamer when my opponent plays 2 level 3 or level 4 or higher Digimon at the same time, do I gain <Draw 1> or 1 memory twice?	No, you don't. You only <Draw 1> once even if multiple level 3 Digimon are played, and you similarly only gain 1 memory even if multiple level 4 or higher Digimon are played.
