BT10		1	
Nº			
BT10-001	DemiMeramon		
	1	Does this card's inherited effect give this card +1000 DP when it has a red 2-color card as a digivolution card?	Yes, it does.
BT10-004	Bosamon		
	1	Does this card's inherited effect activate when an effect suspends one of my Digimon?	Yes, it does.
BT10-006	Tokomon		
	1	Does this card's inherited effect activate even when this card is trashed from digivolution cards by my own effect and not my opponent's?	Yes, it does.
BT10-008	Shoutmon		
	1	Is it true that both the Digimon card and the Tamer card must have the [Xros Heart] trait in order for this card's effect to be able to add them to my hand?	Yes, that's correct.
	2	This card's effect reveals 3 cards. If the cards revealed only include either a Digimon card or a Tamer card with the [Xros Heart] trait, can I still add a card to my hand?	Yes, as long as either a Digimon card with the [Xros Heart] trait or a Tamer card with the [Xros Heart] trait is among the cards revealed, you can add it to your hand.
	3	This card's effect reveals 3 cards. If both Digimon and Tamer cards with the [Xros Heart] trait are among the cards revealed, can I choose to only add one of them to my hand, and place the remaining cards at the bottom of my deck?	No. This card's effect reads "Add 1 Digimon card and 1 Tamer card [] among them to your hand," so you must add as many cards to your hand as possible.
BT10-009	Shoutmon X4		
B110-009	1	Can I choose not to activate this card's [End of Attack] effect by not performing "placing all digivolution cards from under this Digimon under 1 of your Tamers", thus preventing this Digimon from being deleted?	Yes, you can.
	2	Can I activate this card's [End of Attack] effect if this Digimon doesn't have any digivolution cards?	No, it doesn't activate unless you can perform "placing all digivolution cards from under this Digimon under 1 of your Tamers."
	3	If I activate this card's [End of Attack] effect, can I unsuspend a different Tamer than the Tamer under which I placed the digivolution cards?	Yes, you can.
BT10-011	Canoweissmon		
	1	If more than 1 of my Tamers suspend at the same time, does this card's "+2000 DP" effect activate multiple times?	No, even if multiple Tamers suspend at the same time, this effect will only give +2000 DP.
	2	I digivolve a [BT8-013 BetelGammamon] into this card. Can I activate [BT8-013 BetelGammamon]'s [When Digivolving] <blitz> effect through this card's [All Turns] effect and attack?</blitz>	Yes, if the memory gauge is now at 1 or greater on your opponent's side, you can activate <blitz> .</blitz>

	3	I digivolve a [BT8-013 BetelGammamon] into a [BT8-084 Kimeramon] and place this card as one of [BT8-084 Kimeramon]'s digivolution cards with its [When Digivolving] effect. Can I now activate [BT8-013 BetelGammamon]'s [When Digivolving] <blitz> effect through this card's inherited effect and attack?</blitz>	No, you can't. If this card is added to digivolution cards by [BT8-084 Kimeramon]'s [When Digivolving] effect, you get [BT8-013 BetelGammamon]'s <blitz> effect through this card, but the time to trigger <blitz> has already passed, so <blitz> doesn't activate.</blitz></blitz></blitz>
	4	If I have multiple digivolution cards with [Gammamon] in their names, does this card's [All Turns] effect and inherited effect give me all of their effects?	Yes, you gain all the effects from every applicable card, even if there are multiple of them.
	5	Does this card's [All Turns] effect and inherited effect allow me to activate the inherited effect of a digivolution card with [Gammamon] in its name as an effect of this card?	No, this card's [All Turns] effect and inherited effect don't affect the inherited effects of digivolution cards with [Gammamon] in their names.
	6	Due to an effect, this Digimon has another [BT10-011 Canoweissmon] and a [BT8-008 Gammamon] under it as its digivolution cards. If I play a red Tamer, how exactly does [BT8-008 Gammamon]'s "When you play a red Tamer, <draw 1=""> (Draw 1 card from your deck)" effect work in this situation?</draw>	This card's effect and inherited effect mean that this Digimon gains [BT8-008 Gammamon]'s effects twice, so <draw 1=""> is activated twice and you draw a total of 2 cards.</draw>
BT10-016	Jesmon (X Antibody)	Lhave a Haamaniin thia Dinimania	No. the superfiction of a 2000 DD from their offs of
	1	I have a [Jesmon] in this Digimon's digivolution cards, and one of my Digimon has [Sistermon] in its name. Do my Digimon get +4000 DP from this card's [When Digivolving] effect?	No, they only get +2000 DP from this effect.
	2	This card's [When Digivolving] effect reads "all of your Digimon may also attack unsuspended Digimon and get +2000 DP." Does this also affect my Digimon that enter the battle area in the same turn after I've digivolved into this card?	Yes, it does. However, Digimon affected by this effect still can't ignore the rule "Digimon can't attack on the turn that they were played".
BT10-019	Greymon		
	1	If I have a [Kiriha Aonuma] in play, do I get to choose either "Reveal 4 cards from the top of your deck. Add 2 cards with [Blue Flare] in their traits among them to your hand. Place the rest at the bottom of your deck in any order" or "return 1 [MetalGreymon] from your trash to your hand" for this card's [On Play] effect?	Yes, you can choose one or the other.
BT10-023	Thetismon		
	1	In order to <draw 2=""> from this card's [When Digivolving] effect, do I need to have 6 or fewer cards in my hand after</draw>	Yes, that's right. <draw 2=""> does not activate if you have 7 or more cards in your hand after drawing the digivolution bonus.</draw>
		drawing the digivolution bonus card?	
BT10-024	MetalGreymon	drawing the digivolution bonus card?  Can this card's [On Play] effect target	Yes, it can.

DT40.007	2	An opponent's Digimon was targeted by this card's [On Play] effect, and after that it gained more digivolution cards than this Digimon has, can it now attack and block again?	No. As long as the number of digivolution cards that Digimon had was less than or equal to this Digimon's at the time this effect was activated, this effect stays and it can't attack or block—even if it later gains more digivolution cards.
BT10-027	Regalecusmon		
DT10 000	1	If this Digimon has both level 3 and level 4 Digimon cards in its digivolution cards, can I choose to play just 1 of them with this card's [When Attacking] effect?	No. If you choose to play cards with the [When Attacking] effect, you must play as many cards as possible—so if cards of both levels are in the digivolution cards, you can't play just 1 of them.
BT10-030	Tinkermon		
	1	An opponent's Digimon is targeted by this card's [On Play] effect. If it later becomes level 6 or above, does it lose the <security -1="" attack=""> gained from this effect?</security>	No. As long as it was level 5 or lower when this effect was activated, the effect remains and it still has <security -1="" attack="">—even if it later becomes level 6 or higher.</security>
BT10-032	Renamon		
	1	This card's effect reveals 4 cards. If the cards revealed only include either an Option card with [Plug-In] in its name or a yellow Tamer, can I still add a card to my hand?	Yes, as long as either an Option card with [Plug-In] in its name or a yellow Tamer is among the cards revealed, you can add it to your hand.
	2	This card's effect reveals 4 cards. If both an Option card with [Plug-In] in its name and a yellow Tamer are among the cards revealed, can I choose to only add one of them to my hand, and place the remaining card at the bottom of my deck?	No. This card's effect reads "Add 1 Option card [] and 1 yellow Tamer among them to your hand," so you must add as many cards to your hand as possible.
	3	If I activate an effect that reduces the cost of an Option card with a cost of 2 or more and I only pay a cost of 1, or if I do not pay the cost at all by activating an effect that allows me to use an Option card without paying the cost, does this card's inherited effect activate?	Yes, as long as the Option card you use has a cost of 2 or more, this card's inherited effect activates regardless of the actual cost paid.  However, if some effect (like [BT2-099 Glorious Burst]'s "Reduce the memory cost of this card in your hand by 1 for each yellow Tamer you have in play" effect) reduces the Option card's actual cost instead of just the cost you pay when using it, then this card's inherited effect doesn't activate.
	4	If I activate a <delay> effect on an Option card with a cost of 2 or more that was already placed in the battle area, does this card's inherited effect activate?</delay>	No, this card's inherited effect only activates if you use an Option card from your hand or by activating an effect that specifies that you "use" an Option card.
	5	If there's no target for the Option card when I use an Option card with a cost of 2 or more, does this card's inherited effect activate?	Yes, it does.
BT10-034	Dorulumon		
	1	While this card is in the digivolution cards of a Digimon with [Shoutmon] in its name, do my opponent's Security Digimon get -2000 DP from this card's inherited effect even when they are checked by some other Digimon?	Yes, they get -2000 DP even when checked by some other Digimon than the one that has this in its digivolution cards.
BT10-040	Achillesmon		
BT10-041	2  Sakuyamon: Maid Mode	If I have exactly 3 cards in my security stack, do I activate both the "1 of your opponent's Digimon gets -5000 DP for the turn" effect and the "gain 2 memory" effect when activating this card's [When Attacking] effect?	Yes, you do.
-			

		If I activate this card's [When	[BT9-103 Kongou]'s effect prevents cards
	1	Digivolving] effect and use an Option card while my opponent has activated [BT9-103 Kongou]'s effect, what happens when that Option card's effect has finished activating?	from being added to your security stack, so the card is placed in your trash.
	2	What happens if I activate this card's [When Digivolving] effect to use an Option card that has a "Then, place this card in your battle area" effect?	You place this card in your battle area. You can't trash it due to the Option card's own effect, so "Place the Option card used with this effect on top of your security stack face down instead of placing it in your trash" doesn't activate.
	3	I activate this card's [When Digivolving] effect to use [BT4-105 Tactical Retreat!] and choose this card itself as the target, so I place this card on top of my security stack face down.  Does this card's effect still place [BT4-105 Tactical Retreat!] on top of my security stack after it has finished activating, even though this card has now been removed from the battle area?	Yes, the effect of this card has already activated, so you still place [BT4-105 Tactical Retreat!] on top of your security stack.
BT10-042	Venusmon		
	1	Does "can't attack this Digimon and can't activate [When Attacking] and [When Digivolving] effects" in this card's [Opponent's Turn] effect apply to opponent's Digimon with <security +x="" attack=""> as well as those with <security -x="" attack="">?</security></security>	Yes, all of your opponent's Digimon with either <security +x="" attack=""> or <security -x="" attack=""> are affected by "can't attack this Digimon and can't activate [When Attacking] and [When Digivolving] effects."</security></security>
	2	My opponent has this Digimon in play, and I digivolve one of my Digimon into a Digimon card that has <security +1="" attack=""> and a [When Digivolving] effect. Does that Digimon activate its [When Digivolving] effect?</security>	No, it has <security +1="" attack=""> as soon as the digivolution is complete, so this card's effect prevents the [When Digivolving] effect from activating.</security>
	3	What kind of Digimon does this effect's "Digimon with <security attack="">" refer to?</security>	It refers to Digimon affected by <security +="" attack=""> or <security -="" attack=""> effects.</security></security>
	4	If an opponent's Digimon has both <security +1="" attack=""> and <security Attack -1&gt; so the values cancel each other out, is the Digimon treated as not having <security attack="">, and is it unaffected by "Digimon with <security Attack&gt; can't attack this Digimon and can't activate [When Attacking] and [When Digivolving] effects"?</security </security></security </security>	No, <security attack=""> is not canceled even if a Digimon has both <security +1="" attack=""> and <security -1="" attack="">.  The Digimon is considered to have <security attack="">, so the effect applies to this Digimon.</security></security></security></security>
	5	I digivolved one of my [MetalGreymon] into [BT9-015 MetalGreymon (X Antibody)]. It gets <security attack+1=""> and +3000 DP with its [When Digivolving] effect, but does that effect activate when my opponent has this</security>	Yes, it activates. [BT9-015 MetalGreymon (X Antibody)] gains <security +1="" attack=""> from the [When Digivolving] effect, so after that effect has activated, this card then prevents further [When Attacking] and [When Digivolving] effects from activating.</security>

BT10-046	Palmon		
	1	Can this card's effect add cards that have the trait [Ancient Plant] or [Carnivorous Plant], etc.?	Yes, it can.
		This card's effect reveals 4 cards. If	Yes, as long as at least 1 card with
	2	with [Vegetation] or [Plant] in one of its traits or with the [Fairy] trait, can I still add a card to my hand?	[Vegetation] or [Plant] in one of its traits or with the [Fairy] trait is among the cards revealed, you can add it to your hand.
		This card's effect reveals 4 cards. If both a card with [Vegetation] or [Plant]	No. This card's effect does not feature language that would make it optional, so you

	2	If I have 4 suspended Digimon, does this Digimon gain +4000 DP and <security +1="" attack=""> twice?</security>	Yes, that's correct.
	3	Does this card itself count as a suspended Digimon for this card's [Your Turn] effect?	Yes, this Digimon counts if it's suspended.

	2	This card's effect reveals 4 cards. If the cards revealed only include 1 card that is either black with [Knightmon] or [DeadlyAxemon] in its name or 1 card with the [Twilight] trait, can I still add a card to my hand?	Yes, you can add just 1 card to your hand.
	3	This card's effect reveals 4 cards. If 2 cards that are either black with [Knightmon] or [DeadlyAxemon] in their names and/or the [Twilight] trait are among the cards revealed, can I choose to only add one of them to my hand, and place the remaining card at the bottom of my deck?	No. This card's effect reads "Add 2 cards [] among them to your hand," so you must add as many cards to your hand as possible. However, if you have a black card with [Knightmon] or [DeadlyAxemon] in its name and the [Twilight] trait among the revealed cards and there are no other cards with [Knightmon] or [DeadlyAxemon] in their names, you can treat that card as your card with the [Twilight] trait and add it to your hand. Any other cards that have the [Twilight] trait will then be returned to the bottom of your deck. In such a case, it can be possible to add just 1 of the cards.

BT10-068	Gankoomon (X Antibody)		
	1	This card's [When Digivolving] effect reads "all of your Digimon get +2000 DP and your opponent's effects can't return them to hands or decks or reduce their DP." If one of my Digimon's DP is reduced before this effect activates, what happens to that Digimon's DP?	Its original DP is restored by "can't [] reduce their DP," and it additionally gets +2000 DP from this effect.
BT10-069	DarkKnightmon (X Antibody)		
	1	If [DarkKnightmon] or [X Antibody] is in this Digimon's digivolution cards but I can't delete a Tamer because neither I nor my opponent have any, does this card's [When Digivolving] effect unsuspend this Digimon?	Yes, it still unsuspends.
	2	If [DarkKnightmon] or [X Antibody] is in this Digimon's digivolution cards but only I have a Tamer, can I choose to not delete my Tamer with this card's [When Digivolving] effect?	No, you can't.
BT10-070	Blastmon		
	1	When one of my opponent's level 4 or lower Digimon attacks, can I delete that Digimon with this card's [Opponent's Turn] effect before its [When Attacking] effects activate?	No, you can't. This card's [Opponent's Turn] effect triggers in the reaction step of the attack after [When Attacking] effects have already activated.
	2	If this Digimon has 4 or more digivolution cards when I play this card, does <blitz> activate?</blitz>	No, it doesn't. This card's [On Play] effect only activates <blitz> if there are exactly 3 digivolution cards.</blitz>

The deleted cards, including this one, are sent to my trash, and now I have over 10 cards in my trash. Does <retaliation> in this card's inherited effects activate and delete my opponent's Digimon it battled?</retaliation>	No. You didn't have 10 cards in your trash until after the deletion already took place, so this Digimon's inherited effect could not be active at the time of the deletion.
BT10-073			

	1	This card's effect reveals 4 cards. If the cards revealed only include 1 card with the [Bagra Army] trait or a [Yuu Amano], can I still add a card to my hand?	Yes, as long as either a Digimon card with the [Bagra Army] trait or a [Yuu Amano] is among the cards revealed, you can add it to your hand.
	2	This card's effect reveals 4 cards. If both a card with the [Bagra Army] trait and a [Yuu Amano] are among the cards revealed, can I choose to only add one of them to my hand, and place the remaining card at the bottom of my deck?	No. This card's effect reads "Add 1 card [] among them to your hand," so you must add as many cards to your hand as possible.

5.10 011	1	<draw 1=""> activates twice from both a [When Attacking] effect and an inherited effect, and their hand increases by 2 cards. Will this card's [Opponent's Turn] effect trash 2 of my opponent's cards in their hand?</draw>	No, you can only trash cards equal to the number of cards added by one effect.  Even if they were triggered at the same time, different effects are still separate from each other, and you can only activate this effect for one of them, so in this case you can count only one of the <draw 1=""> and only 1 card in your opponent's hand will be trashed.</draw>
	2	Does this card's [Opponent's Turn] effect activate after an effect that adds and trashes cards in your opponent's hand so that the result is net 0 total cards gained, like " <draw 2="">. Then, trash 2 cards in your hand"?</draw>	Yes, it activates. This card's effect trashes the number of cards that were drawn. In the example given in the question, after trashing 2 cards from their hand, your opponent would trash an additional 2 cards, for a total of 4 cards trashed.
BT10-080	SkullBaluchimon

BT10-084	Tactimon		
	1	Does this card's [Opponent's Turn] effect activate when an opponent's effect trashes one of my Digimon's digivolution cards?	Yes, it does.
	2	A "trash 2 digivolution cards" effect activates on 1 of my Digimon with 2 or more digivolution cards when this Digimon has only 1 digivolution card. Can I activate this card's [Opponent's Turn] effect?	Yes, you can. If you do, trash as many of this card's digivolution cards as possible.
	3	If a "trash 1 digivolution card" effect activates on 2 of my Digimon, can I activate this card's [Opponent's Turn] effect and trash just this Digimon's digivolution cards?	Yes, you can. If you do, trash the total number of digivolution cards that would have been trashed from each of the Digimon that you replaced with this Digimon.
		If a "Trash 2 digivolution cards" effect activates on 1 of my Digimon with only	Trash 2 cards. If this card has 1 or fewer digivolution cards, trash as many as possible.

	5	A "trash digivolution cards" effect targets one of my Digimon when this Digimon has 0 digivolution cards. Can I activate this card's [Opponent's Turn] effect?	Yes, you can. If you do while this Digimon has no digivolution cards, digivolution cards will not be trashed.  If there are effects that activate when digivolution cards are trashed, such as "By trashing a digivolution card," the effect will not activate because digivolution cards were not trashed.
	6	Is it possible for one of my Digimon with 0 digivolution cards to activate an effect that reads "By trashing X of this Digimon's digivolution cards" by way of activating this card's [Opponent's Turn] effect and trashing those cards from this Digimon?	Yes, it is. If you can trash the number of digivolution cards specified by the effect from this Digimon, your Digimon with 0 digivolution cards can indeed activate such an effect.
	7	My opponent activates a "Trash the bottom digivolution card of all of your opponent's Digimon" effect. Can I use this card's [Opponent's Turn] effect to trash just this 1 Digimon's digivolution cards without trashing my other Digimon's digivolution cards?	Yes, you can. BT10-111	Shoutmon (King Version)		
	1	What does "When you would DigiXros this turn, this Digimon may replace 1 of the DigiXros requirements" mean?	When you would DigiXros, this effect allows you to replace 1 of the cards in that Digimon's DigiXros requirements.  For example, when you would play a card with [Shoutmon X4] × [Beelzemon] in its DigiXros requirements, you may place this Digimon for the DigiXros instead of [Shoutmon X4] or [Beelzemon].
	2	When DigiXrosing, can I place all of the cards listed in the DigiXros requirements in the digivolution cards, then additionally DigiXros this card?	No, you can't. This card can only replace 1 card in the DigiXros requirements when DigiXrosing, not add to the DigiXros requirements.

Therefore, if there are 2 or fewer cards with the [Blue Flare] trait including [Kiriha Aonuma] among the revealed cards, you can't play [Kiriha Aonuma] because you would have to add it to your hand.
	4	This card's effect reveals 6 cards. If both cards with the [Blue Flare] trait and a [Kiriha Aonuma] are among the cards revealed, can I choose to only activate the effect that adds the cards to my hand and not play [Kiriha Aonuma], or the other way around?	No, if you perform any of this effect you must perform as much of it as possible, so if both cards with the [Blue Flare] trait and a [Kiriha Aonuma] are among the 3 cards revealed, you must perform both "add [] to your hand" and "play 1 [Kiriha Aonuma]," or you must choose to perform neither.
BT10-100	Impulse Memory Boost!		
	1	Can I place this card in my battle area even if I don't have a [Pulsemon] in my hand?	Yes, you can.
BT10-101	Lónkhē Adistakto		
	1	I have exactly 3 security cards. Do I activate both this card's "1 of your opponent's Digimon gets -12000 DP" effect and "place 1 of your opponent's Digimon face down on top of their security stack" effect?	Yes, that's correct.

	1	My opponent checked my security when I had 4 security cards, and this card was flipped over. This card's [Security] effect activates, but is my security stack considered to have 3 cards?	Yes, it's considered to have 3 cards. Cards revealed by a security check are not considered part of your security stack.
BT10-103	Gran del Sol		
	1	After suspending 1 of my opponent's Digimon with this card's [Main] effect, can I return some other Digimon than the one I suspended to the bottom of their deck?	Yes, you can.
BT10-108	Death the Cannon		
	1	the top X cards of your deck. [] Trash	No, you can't. Trashing revealed cards from your deck does not count as "trashed from your deck."
BT10-110	Seiken Meppa		
	1	I have a [Jesmon GX] that has <security attack=""> in play, while my opponent has a [BT10-042 Venusmon] in play. If I use this card and target my [Jesmon GX], can this card's effect</security>	No. Because [Jesmon GX]'s [When Digivolving] and [When Attacking] effects cannot be activated due to your opponent's [BT10-042 Venusmon], even this card can't activate those effects in these
